AMIGA THE GUIDE

64 PAGES OF PRODUCTS FOR THE COMMODORE AMIGA AT GREAT PRICES

In your hands is the most detailed and comprehensive guide to the powerful, popular and versatile range of Amiga computers from Commodore.

Inside this 64 page brochure you will discover a wealth of Amiga information. Products featured include hardware, software (entertainment and productivity), peripherals, books and accessories.

Silica are pleased to offer a greater choice of systems than ever before; including the full range of Amiga computers and the revolutionary new 32-bit CD32 console.

At Silica, we believe that we offer the best deals available. But that's not the only reason our customers buy from us regularly. We pride ourselves on the high level of service and support we provide, making sure that our customers feel comfortable and secure. For full details of the Silica service, see pages 2 and 3.

We hope that you will find this handy pocket-sized guide an invaluable source of reference for all of your Amiga needs.

If you are already an Amiga owner, or are looking to buy an Amiga, we would welcome the opportunity to serve you.

We look forward to hearing from you!

32 PAGE GUIDE

If you are looking for a printer for your Amiga, check out our additional 32 page product guide. This guide also features telephones, faxes and other products in the Silica range. If you haven't already got one, contact Silica now for your FREE copy of our December 1993 32 page guide.

SILICA

THE SPECIALISTS

1978 SILICA 1993 — 15 YEARS SERVICE TO YOU

WHO ARE SILICA

A WELL ESTABLISHED COMPANY

Silica is one of the UK's leading specialist computer dealers. We have been established for longer than almost every other dealer - 15 years. We are wholly owned by one of the largest computer groups - Prodis plc with a turnover of over £50 million. There are six Silica retail outlets, including prime sites within Selfridges and Keddies department stores, as well as several major branches of Debenhams throughout the UK. Silica are major suppliers of computers and associated products to the public as well as to business and educational establishments.

MAIL ORDER IS OUR SPECIALITY

Our Sidcup branch also runs a fast mail order operation for over 400,000 customers spread across the UK and overseas.

SELFRIDGES - WE ARE IN THE NEW BASEMENT ARENA

FOR BUSINESS, EDUCATION & LEISURE

We are an established authorised dealer for Commodore, Psion, Amstrad, Philips, Atari, Sega, Nintendo, Ambra and Apple. In addition to stocking the hardware, we support these systems with a full range of peripherals, accessories and software products from major manufacturers such as Citizen, DFI, GVP, Ricoh, Seikosha, Kao, Roctec, Sharp and Texas Instruments. You can rely on Silica for all of your video game and computer requirements.

THE SILICA SERVICE

AIMING FOR EXCELLENCE

We strive to achieve excellence and to this end, are continually improving the quality of service to our customers. We don't want you to feel forgotten when you buy from us. Rather, we would like you to feel confident that you are in partnership with a company that cares and wants you to get the best from your purchase.

FOR PEACE OF MIND

We would like to take this opportunity to explain the quality of service and peace of mind you will get, when you buy from Silica.

CONSIDER THE BENEFITS

Before you decide to make your next purchase, we suggest you consider very carefully WHERE you make it. There are MANY companies who can offer you a computer, a few peripherals and the top ten selling titles. There are FEWER companies who can offer a wide range of products for your computer as well as expert advice and help when you need it. There is ONLY ONE company who can provide the widest range of computer related products in the UK, a full time specialist technical team and helpline to cover in-depth after sales support, including free newsletters and brochures. That one company is *Silica*.

On these pages, we have outlined some of the services you can expect when you buy from us. We aim to satisfy your requirements from the moment you make your first enquiry, to the day we deliver your purchase ..... and beyond.

HELPING YOU DECIDE

IMMEDIATE RESPONSE

When we receive your initial enquiry, it is our aim to respond immediately, so that details of the products you are interested in are with you the following day. Should you require further details, then our experienced sales staff will be pleased to answer your enquiries.

TAKING YOUR ENQUIRIES AND ORDERS

TECHNICAL QUERIES

If there are any detailed technical points you want to raise, you will be passed to our team of technical support experts who will give you authoritative answers to your questions.

SILICA HOTLINE: 081-309 1111

For your sales enquiries, we welcome calls on our main "Hotline" number (081-309 1111) which is staffed Monday to Friday from 9am to 7pm and Saturday 9am to 5.30pm. Outside of these hours you can leave a message and we will get back to you as soon as the office is open.

SHOWROOM FACILITIES

If you are still undecided after reading our brochures, you are welcome to visit one of our retail outlets. See page 3 for opening times.

PLEASE TELEPHONE TO BOOK AN APPOINTMENT

CORPORATE/EDUCATION

If you are from business or the education sector and are responsible for purchasing computer systems, we will be happy to discuss favourable terms. Please contact our Business/Education team on 081-308 0888 for a written proposal.

EXPERIENCED STAFF

Our sales staff combine to form a team with considerable experience and expertise. They are technically conversant with our product lines and are frequently trained by product suppliers to enable them to stay abreast of the latest developments. Our technical team will explain computer jargon in an easy to understand way, and can also fax technical help sheets for most common enquiries.

FREE GIFTS FROM SILICA

When you buy an Amiga computer from us, you will often be entitled to some free gifts (see hardware pages). These gifts are designed to get you off to a flying start with your new computer and are available when the relevant hardware is purchased at normal Silica prices. They represent substantial savings and are often only available from Silica.

SILICA DISCOUNTS

We also offer a discount on most of our products. This discount will vary depending on the item and whether we have a special offer on that particular product line. See the section below and the individual product listings.

PRICE MATCH

Should you find a better offer elsewhere before you make your purchase, Silica will price match any competitor (who has the goods in stock), on a "same product, same price" basis. Plus, we will still offer you our high quality after sales service.

A WEALTH OF INFORMATION

Silica always try to give as much information as possible in our price lists and brochures to assist you in making your purchase.

① CODE	② DESCRIPTION	NOTES	③ RRP INC VAT	④ SILICA DISC	⑤ SILICA INC VAT
AST 7742	True Print 24		£59.95	£5	£54.95
AST 7742	True Print 24		£59.95	£5	£54.95
AST 7742	True Print 24		£59.95	£5	£54.95
ASV 5102	Video Director		£149.95	£10	£139.95

In this price list, line listings are displayed as in the above diagram. All products are listed with a product code ① and a description ②. Please make sure that you state the product code when placing your order. The line listings also show a notes column with release dates and offers ③, RRP including VAT ④, the discount we give (rounded to the nearest £) ⑤ and ⑥ the low Silica Price (inc VAT) which you pay.

All products in this catalogue are quoted at a price including VAT. Please bear this in mind when comparing against other companies who may quote exc VAT prices and then add VAT on afterwards.

PLACING AN ORDER

ORDER WITH CONFIDENCE

We hope that the combination of our low prices, free gifts, free delivery, after sales service and support will be enough to convince you that Silica is the place to buy your Amiga products. You can buy from us with complete confidence, receiving value for money products, fast and safe delivery and unrivalled, full after sales support and technical advice.

FULLY COMPUTERISED

Our ordering system is fully computerised, so our sales staff are able to give you accurate and current information at the touch of a button. Each of the 4,000 items we carry in stock has a product code which our computer recognises. Please use these codes as this will help us to process your order as soon as possible. Full details of how to buy from Silica are given at the bottom of this page.

PACKING AND DESPATCHING YOUR ORDER

FREE UK DELIVERY

FAST AND EFFICIENT

If you have made up your mind and want to place an order, you can rest assured it will be processed in the shortest possible time. To place an order, simply telephone our sales team on 081-309 1111, fax them on 081-308 0608, or complete and return the enclosed Silica order form in the reply envelope provided.

Silica has a reputation for fast, efficient delivery which is FREE OF CHARGE to all customers (on the UK mainland).

Orders for hardware are normally despatched by courier on the day we receive them so that your goods arrive at your door on the next working day (Saturday or special deliveries can be arranged for a small charge). Orders for accessories and software will normally be despatched the same day and will arrive via first class post. If you live in a VAT exempt country, please contact us for 'VAT FREE' prices, plus a quotation for shipping.

AFTER SALES SUPPORT

FREE TECHNICAL HELPLINE

To ensure you get the best from your computer we have a team of experts to help you with technical queries. Their advice is available to you FREE OF CHARGE during office hours, Monday to Friday 9am to 6pm, Saturday 9am to 5.30pm, on 081-309 1111. Specialist consultancy work can also be arranged at reasonable prices for those customers who require it. See page 35 for details of our bulletin board service.

EXPERIENCED SERVICE ENGINEERS

NO QUIBBLE RETURNS

Some products that we sell come with full on-site warranty. For most products, our efficient returns procedure ensures that any defective goods in warranty are replaced or repaired with the minimum fuss and delay. For customers on the UK mainland, we will arrange for a courier to collect and return most hardware equipment that requires exchange. We are normally able to return a new product the next day. If you have to return defective product by post or courier, please ensure that it is complete and wrapped securely in protective outer packaging. Our skilled team of servicing engineers repair products out of warranty for a reasonable charge (see pg 64).

EXTENDED WARRANTIES

The SilicaCare extended warranty scheme has been designed with the customer in mind. Cover can be taken up to 5 years offering not just peace of mind but also a way to avoid costly repairs. For further details refer to our SilicaCare brochure.

LOOKING AFTER YOU

WE STORE YOU IN OUR MEMORY

Once you're a Silica customer, we will not forget to look after you. Our Sales and Technical teams are on 081-309 1111 to help and advise you free of charge. Also, when your address and ownership details are stored on our computer, we aim to keep you up to date with news of latest products and offers that are relevant to you, sending FREE catalogues as they become available.

EXTENDED HOURS AT CHRISTMAS
CALL FOR DETAILS

BY POST - SIDCUP ADDRESS:
A simple order form and a reply envelope are enclosed. We aim to process and despatch all orders the day we receive them (subject to availability).

BY TELEPHONE - 081-309 1111:
You can call us on 081-309 1111 with credit card orders. Please quote your card number along with expiry date, name, address and order details. We will process your order, debiting your account accordingly.

BY FAX - 081-308 0608:
Credit card customers may fax their orders to our sales office fax number.

PLEASE USE OUR PRODUCT CODES:
Please use the product codes given in this price list when placing your order. This will help us to process your order as quickly as possible.

CASH: We would recommend that you do not send cash through the post. However, if you have no alternative, please send it by registered mail for added security.

POSTAL ORDERS:
All postal orders of any denomination are accepted. Please make sure that you cross the order, payable to Silica and retain the counterfoils.

CHEQUES:
Please make cheques payable to Silica. If available, please write your cheque guarantee or credit card number and expiry date on the back.

CONNECT/SWITCH CARDS:
We are pleased to accept both Connect and Switch cards in our retail branches. We can also accept payment for mail order purchases made with Connect cards.

CREDIT CARDS:
We accept all of the major credit cards, which include, ACCESS, EUROCARD, MASTERCARD, BARCLAYCARD, VISA, AMERICAN EXPRESS and DINERS CLUB. Please write your credit card number and expiry date on the order form or telephone us quoting your number and expiry date.

BURTON & SEARS CARDS:
Purchases from Silica at Debenhams may be made using any Burton Group storecard. Similarly, if you have a Sears card, you can use it when shopping at Silica in Selfridges.

CREDIT:
We offer credit facilities, subject to status, with payments over 12, 24 or 36 months at competitive rates (typical APR=29.9%). Ask for a credit application form if one is not already enclosed (our consumer credit licence number is 102748).

WHY BUY AN AMIGA?

If you are going to buy a computer, the Amiga range from Commodore is worth a close look. Amigas are the UK's most popular home computers and are fully supported with a complete range of peripherals, accessories and software. And, though you may be new to computing, an Amiga's ease of use guarantees results from day one.

The Amiga was designed with user friendliness in mind. As a modern computer an Amiga is simple to use and offers applications that, until recently, could only have been dreamt of. Incredibly fine details can be generated by an Amiga and make it an ideal computer for use in all areas of creative work, as well as technical, medical and educational fields.

PROFESSIONAL APPLICATIONS

Combine Text & Graphics

The technical specification of the Amiga is setting new boundaries for the computer world of today. This applies not only to standard functions such as word processing and file management, but also to the combination of text and high resolution graphics. New methods of communication require information to be understood and assimilated quickly. Information that is clearly laid out and easy to absorb will win approval.

Desktop Video

Drawing and animation of graphics are possible in 2D or 3D, which can add realism to your creation. And, with a genlock unit, you could animate a cartoon character over your favourite film by using overlaying graphics techniques.

Another use for genlock is to overlay titling credits at the end of your own home video (ITV's "The Chart Show", use an Amiga based genlock video system). Computer Aided Design (CAD) software gives you the power to draw accurately your design and construction ideas to see if they work. Digitising tablets, light pens and plotters can easily be added to increase the speed of input to, and quality of output from, your Amiga system. The Amiga is also ideal for digitising video images and producing professional business graphics. These can then be edited and enhanced with some of the many paint packages available and transposed to 35mm slides or sheet acetate for public display on overhead projectors.

You can also save video images as part of your files. The professional archivist or the amateur collector can record pictures of items (after first filming them with a video camera), then sort them by different criteria, such as colour, price, size, article number etc., retrieving them at the touch of a button. These facilities are created with the aid of a video digitiser, or genlock.

EDUCATION & ENTERTAINMENT

Learning

The Amiga is an ideal teaching aid for children of all ages. The range of educational titles available for the Amiga has expanded dramatically with the release of the BBC emulator. This allows the Amiga to run BBC Model B software at up to eight times its original speed and read/write to BBC disks from an Amiga drive. BBCs are used in many schools and colleges because of the number of educational titles available for the machine.

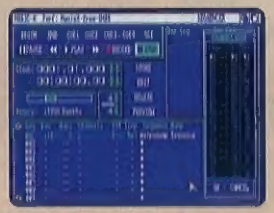
The Amiga is a logical upgrade from the BBC because of its well established compatibility.

SOUND AND GRAPHICS

Spectacular Graphics

Enjoy spending time creating genuinely artistic results using graphics software such as Photon Paint II. For the first time, a computer can be widely enjoyed by all age groups, combining creativity with entertainment and education.

Children will be captivated and will delight in impressing you with the magic they have created on screen.



Supersound in Stereo

Unlike conventional computers, the Amiga has a co-processor dedicated to sound, offering 4 channels simultaneously in STEREO.

This means the Amiga has the power to pitch tones and melodies so precisely that they can imitate all the tones of the most common instruments. Sound effects such as thunder, raindrops and animal noises are easy to simulate with the Amiga. Actual sound can be digitised and manipulated for subsequent play back.

The Amiga even has text-to-speech synthesis (with either a male or female voice). Anything typed in can be spoken back by the Amiga and incorporated into professional as well as home-produced software programs.

UNIQUE FLEXIBILITY

No Complex Commands

Unlike the traditional method of using a computer, the Amiga can be used without having to enter commands from the keyboard. System functions are shown on the screen by icons (graphical representations of disks, files or projects) which are called up by positioning the mouse on them and clicking it. This means even an inexperienced user can start working the system straight away.

Input and Output

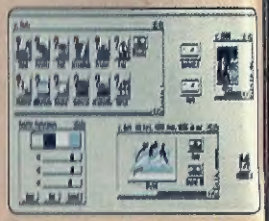
In addition to the standard methods of input and output of text and data, the Amiga offers many additional facilities consistent with state-of-the-art computer technology. These include digitising text, graphics and sound for input and output through a built-in text-to-speech synthesiser, hi-fi systems and video recorders.

Operating System

The Amiga has a real time, multi-tasking operating system with fully dynamic memory management which ensures efficient use of hardware resources. Both the hardware architecture and the system software have been designed so that updates/add-ons can be incorporated at any time. So, all functions can be easily addressed by all of the many programming languages.

Multi-tasking

The Amiga is a Window, Icon, Mouse and Pulldown Menu (WIMP) computer with its own custom designed device operating system, Amiga DOS. It is multitasking and, as such, appears to be able to do more than one "job" at once. Many software packages are written with this multi-tasking environment in mind.



Multi-tasking allows your Amiga to run such programs as a database, word processor and spreadsheet applications at the same time, each doing its own calculations, each independent of the other but sometimes sharing the same resource.

Versatile, easy to use and competitively priced, the Amiga compares favourably with other home computers. Read the rest of this brochure for a guide to the world of Amiga, then see if you can stop yourself from buying one!

AMIGA

FREE! FROM SILICA

GIFT COMBINATIONS WITH AMIGA PURCHASES

We want to make sure that new Silica Amiga owners get off to a flying start with their new computer. To help them do this, we have put together a superb collection of **FREE** gifts, including some of the latest high quality games, as well as programming utilities/languages and useful business applications. THE CHAOS PACK is the newest and best compendium of Amiga software. The four titles in the pack are The Chaos Engine, Nick Faldo's Championship Golf, Pinball Fantasies and Syndicate. All four have been awarded a gold rating by Amiga Format, Britains best selling Amiga magazine. Photon Paint II provides instant access to the astonishing power of the Amiga range of graphic chip sets. And, GFA BASIC is the language with which most Amiga users learn to program. The total value of the Silica gifts is over £265 and one or more of them is given with each Amiga 600, 1200, 1500 and 4000 purchased. Check out the hardware pages (9-17) to see which gifts are free with your choice of Amiga, then refer to these pages (5, 6 & 7) for a description of the free gifts themselves.

"WOW! I'M TOTALLY STUNNED . . BRILLIANT" - *95% Amiga Action*

Race through four fiery infernos of colour in this spectacular multi-table simulation. Hammer your steel ball through a series of roll overs, ignition letters, ramps, targets and traps. Each table has a distinctive '60s style board, illustrated with clowns, cars, ghosts or skulls. Play alone or with up to seven friends. It's as near to the real thing that you'll get on any computer, and every flip of the ball is free.

Four tables include:

- Partyland
- Billion Dollar Game Show
- Stones 'n' Bones
- Speed Devils

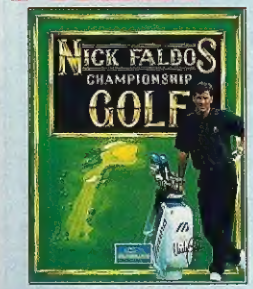
FREE! NICK FALDO'S GOLF



"FALDO'S PRESENTATION BEATS ALL OTHER AMIGA GOLF GAMES" - *90% Amiga Format*

Nick Faldo's Championship Golf is a state of the art golf simulation full of Grandslam features. The fully contoured courses are beautifully illustrated using a unique 3D polygon mapping technique and are enhanced by digitised sound effects including club swing, hitting trees, water, putting, passing birds and other wildlife. Your challenger is Nick Faldo who can also be your coach in a training session that includes lessons on putting, draw and fade, bunker play and how to play in the wind. With the choice of two 18 hole courses to play and 3 levels of gameplay (beginner, amateur and professional) you'll find hours of pleasure in this superb golfing simulation.

AMIGA GOLD FORMAT

- Two 18-hole courses
- Three levels of gameplay
- Training section with Nick Faldo

FREE! SYNDICATE

"DESTINED TO BECOME A TRUE CLASSIC" - *93% Amiga Action*

Business is war! Make your mark as a thrusting young executive in a corporation where murder makes money. Kill off your international enemies using remote controlled assassins, develop new ways of generating financial power, and extract taxes from those parts of the globe that you dominate. Each of your 50 missions takes place amongst the steel and concrete streets of near future cities while the population goes about its business unaware of the violence and destruction that is about to explode on the side walks. By meeting all the challenges and destroying all the targets, your business syndicate will reign supreme.

- Construct up to eight deadly Cyberpunk cyborgs
- Choose from a range of hi-tech weapons
- Invest in research and development
- Play amongst stunning 3D city 'scapes
- 50 cities in which to compete against eight other syndicates
- Digital sound effects and music

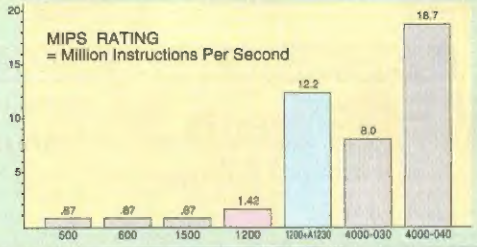
- Internal 2.5" IDE Hard Drive Option
- Full Expansion via Trap Door
- Numeric Keypad
- Supplied With The Latest Version of Workbench / Kickstart 3.0
- 1 Year On-Site/At Home Warranty

14.19MHz 68020EC 32-bit CPU

THE COMMODORE FLAGSHIP

The Amiga 1200 is the home computer for the 90s. It's a true 32-bit computer, capable of displaying 256,000 colours on-screen out of an amazing 16.7 million colour palette courtesy of the new AA chipset. This chipset gives a quality of image that is truly photo-realistic, and is backward compatible with the Amiga enhanced chipset. As a game machine, the Amiga 1200 sets new standards, with major publishers producing dedicated software for the new chipset. As a home computer, not only does the Amiga 1200 provide small business capabilities such as word processing and spreadsheets, it also interfaces with video and musical inputs such as MIDI compatible instruments.



EXPANDABILITY & SPEED

Upon its launch the Amiga 1200 instantly attracted all major peripheral manufacturers with its amazing power and flexibility. Even without any expansion the A1200 will complete its tasks in under half the time of an A500, A600 or A1500. But with the release of peripherals such as GVP's A1230 accelerator and RAM board (page 23) its speed can be increased to over 14 times that of its predecessors.

Easy expansion has always been one of the positive points in the Amiga range. With the A1200, however, it has never been easier. For the first time, the expansion port in the trap door slot can hold accelerators as mentioned above, maths co-processors, RAM boards & SCSI interfaces giving the option to connect the A1200 to numerous devices such as CD-ROM & tape back-up.

AA CHIPSET

- Resolutions of Up To 1280 x 512 & 800 x 600 Plus More with Overscan
- 16.7 Million Colours
- 256,000 User Definable Colours

Commodore's new AA chipset allows the A1200 to display stunningly lifelike screens. Pictures take on a "true-life" quality and are almost as good as printed photographs. Games can have not just more colours, but also brighter, more attractive screens! The AA chipset offers a colour palette of an amazing 16.7 million colour and screen resolutions up to 1280 x 512 & 800 x 600. Such high resolution, true-colour pictures are only possible with Commodore's latest AA chipset equipped Amigas! As well as the usual Amiga graphics modes the AA chipset provides many higher resolution flicker free modes. The chart across shows all resolutions, their output frequency and quantity of colours available on each model.

*Resolutions with a frequency above 15.6kHz require a multisync monitor such as the Commodore 1940/42 on page 36. All 15.6kHz resolutions will work on a home TV or CGA monitor such as the 1084S.

HARD DRIVE OFFICIAL UPGRADE

WITH FULL COMMODORE WARRANTY

Silica offer the Amiga 1200 with a choice of hard drives. These are legal 2.5" hard drives which fit properly, below the metal safety shield. All of Silica's upgrades are approved by Commodore and both the A1200 and hard disk are fully covered by Commodore's official on-site warranty with WANG. Some dealers fit a 3.5" drive to save cost. To make it fit, they remove the safety shield, and invalidate the warranty. Make sure that the upgraded A1200 you buy has a 2.5" drive and is an official Commodore approved version. Look out for the special round stickers. These are shown below. They indicate the size of the drive installed and show that the upgrade is official and carries a full warranty.

- *16ms Average Access Time*
- *32K Cache Buffer on all 64Mb Drives*
- *64K Cache Buffer on all 85Mb, 127Mb & 209Mb Drives*

HARD DRIVE OFFICIAL UPGRADE

WITH FULL COMMODORE WARRANTY

Silica offer the Amiga 1200 with a choice of hard drives. These are legal 2.5" hard drives which fit properly, below the metal safety shield. All of Silica's upgrades are approved by Commodore and both the A1200 and hard disk are fully covered by Commodore's official on-site warranty. Some dealers fit a 3.5" drive to save cost. To make it fit, they remove the safety shield, and invalidate the warranty. Make sure that the upgraded A1200 you buy has a 2.5" drive and is an official Commodore approved version. Look out for the special round stickers. These are shown below. They indicate the size of the drive installed and show that the upgrade is official and carries a full one year on-site warranty.

- *16ms Average Access Time*
- *32K Cache Buffer on all 64Mb Drives*
- *64K Cache Buffer on all 85Mb, 127Mb & 209Mb Drives*
- *Up To 209Mb Storage Capacity*
- *Supplied with Full Kickstart / Workbench V.3*
- *Compatible Preparation Software & Manual*

AMIGA 1500 HOME ACCOUNTS

AMIGA 1500

The Amiga 1500 is in a class of its own. It stands out from other low-cost computers in the Amiga range as it was designed to be highly upgradeable. Its 1Mb RAM supplied as standard can be upgraded to a massive 25Mb and its 9 expansion slots allow emulators, accelerators, 24-bit graphics cards and more to be plugged directly inside the main system housing. From its standard configuration, which is ideal for entertainment and standard home/office applications, the Amiga 1500 can be upgraded to a high powered workstation to meet the most demanding requirements of creative or business professionals. Check out the wide range of Amiga 1500 compatible peripherals available in this brochure, add some powerful software and see the huge potential of the expandable Amiga 1500.

- ***EXPANDABLE AMIGA 1500***
  Includes Kickstart/Workbench 2.04 + updated Agnus and Denise chips.
- ***1Mb RAM***
  Expandable to 25Mb.
- ***TWIN 3½" D/SIDED FLOPPY DRIVES***
  Two built-in 880K (formatted) 3½" floppy disk drives.
- ***9 EXPANSION SLOTS***
  Allows additional boards to be plugged directly into the A1500.
- ***THREE CO-PROCESSORS***
  To enhance sound, graphics and animation.
- ***ACCEPTS A2000 PERIPHERALS***
  All A2000 peripherals can be plugged into the A1500.
- ***1 YEAR RETURN TO DEALER WARRANTY***
  If your Amiga fails, your dealer will organise for the repair of your A1500.
- ***HOME ACCOUNTS***
  Included in this pack are Puzznic, Toki, Elf, Home Accounts, The Works Platinum Edition, Deluxe Paint III & Get The Most Out of Your Amiga book.

The Amiga 1500 can be used with a colour monitor (see page 36), or a TV (req. modulator MOA 4250 - page 37), or TV with RGB scart connector (requires cable CAB 5135 or CAB 5100 - page 36).

THE NEW AMIGA 4000

THE NEW GENERATION IN OPEN ARCHITECTURE SYSTEMS

The Amiga 4000 is a new generation of multimedia computer courtesy of a new graphics chipset, with display modes of up to 256,000 on-screen colours from a palette of 16.7 million. The Amiga 4000 brings desktop photo-realism to graphics, video, animation and presentations using true colour graphics.

REAL POWER AND FLEXIBILITY

Based on the Motorola 68030EC and 68040 processors, the Amiga 4000 shares the multi-tasking of earlier Amigas and is available with the latest and most powerful graphics and video application software. Inter-operability with documents and graphics from other systems is supported in two ways. First, integrating with full IBM PC environments, the Amiga 4000 allows easy file transfer between Amiga and MS-DOS environments which can be extended to run PC applications with an optional bridgeboard. Second, as a networked component in the Novell environment, the Amiga 4000 is fully supported, both as a terminal and file server. On-screen displays of 800 x 600 pixels or 1280 x 512 are further supported with a dedicated video slot and seven expansion slots for power intensive use.

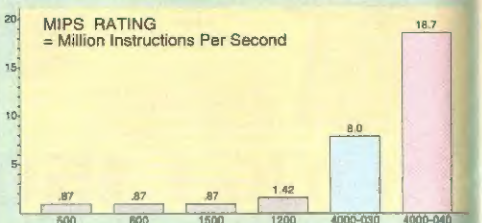
AA CHIPSET

NEW!

- 16.7 Million Colours
- 256,000 User Definable Colours
- Resolutions up to 1280 x 512
- 800 x 600 plus more with overscan

Commodore's new AA multi-chip co-processor system is the next generation of Amiga architecture comprising ALICE, PAULA and LISA chips. These enhance the system's graphics capabilities giving a colour palette of an amazing 16.7 million colours with resolutions up to 1280x512 and 800 x 600. As well as the usual Amiga graphics modes the AA Chipset provides higher resolution flicker free output - see the chart on page 12 for resolutions and page 36 for monitors.

FASTER CPU SPEEDS



The speed at which your Amiga's CPU runs determines just how quickly the system can run applications such as word processors, graphics packages and spreadsheets. It also affects the time taken to number crunch, the pace at which graphics are piped to the screen and the speed at which memory can be accessed if dedicated chips do not exist to perform those tasks.

OPEN ARCHITECTURE

A computer is only as good as its connectivity and expandability. The Amiga 4000's open architecture provides lots of room for memory and peripheral expansion. It includes 4 x 16/32-bit Zorro III slots, 3 x PC-AT slots and a 24-bit video slot for easy integration of Zorro and video boards such as GVP's IV24 (see page 44). Full IBM PC compatibility can be given to the Amiga 4000 by use of a simple plug-in board (see page 27). These boards enable the use of most popular PC titles such as Microsoft Windows, Word & Excel.

AMIGA 4000 TECHNICAL SPECIFICATIONS

Processor/Speed	030 - Motorola 68030EC 32-bit processor, 25MHz clock speed. 040 - Motorola 68040 32-bit processor, 25MHz clock speed.
Memory	2Mb 32-bit chip Ram & (030) 2Mb Fast RAM - (040) 4Mb Fast RAM. Up to 16Mb, 32-bit fast RAM (standard SIMM units). Additional RAM is supported by the Amiga's proprietary AUTOCONFIG capability.
ROM	512K of 32-bit ROM.
Disk Storage	80 or 120Mb hard drive formatted and pre-loaded with system software and utilities. Built-in 3.5" High Density disk drive 880K/1.76Mb formatted capacity (software selectable). 2 rear and 2 front 3.5" drive bays, 1 front 5.25" drive bay.
Operating System	AmigaDOS 3.0 Multi-tasking Operating System. Supports programmable resolution, outline fonts, localised for multiple languages/countries. Cross DOS MS-DOS file transfer utility.
Ports	1 x serial (RS232), 1 x parallel (Centronics). Keyboard/Mouse/Joystick/Light Pen/Tablet ports (2). Video (RGB analog or RGB digital). Right and left stereo audio. Internal and external floppy drive ports. Internal AT IDE interface. Optional SCSI adaptor (soon).
Video Display Output	Works with RGB analog VGA or multiscan monitors (not all modes supported are with non-multiscan monitors) - See Page 36. Horizontal scan rates 15KHz - 31KHz. Vertical scan rates 50Hz - 72Hz.
System Slots	CPU slot (200 pin) supports high speed memory and advanced processors. Amiga system Bus - Four 16/32-bit Zorro III expansion slots (100 pin) with AUTOCONFIG - Also PC Bus. (3 PC AT slots).
Video Slot	Extended 24-bit video slot in line with standard 100 pin Zorro slot for easy integration of Zorro and video boards.
Graphics Modes	AGA custom chip set produces resolutions ranging from 320 x 256 to 1280 x 512 (more with overscan) including 800 x 600. NTSC and PAL video resolution. Colour palette of 16.7 million colours. 2 to 256,000 user-definable colours displayable on screen.
Sound	Four channel stereo sound capable of reproducing complex waveforms. Built-in sound buffer up to 800K nominal. 8-bit D/A converters. 6-bit volume.
Keyboard	Detachable, 94 keys including 10 function keys. Separate numeric keypad and separate cursor keys. (Inverse "T" layout)
Mouse	Opto-mechanical 2-button design.

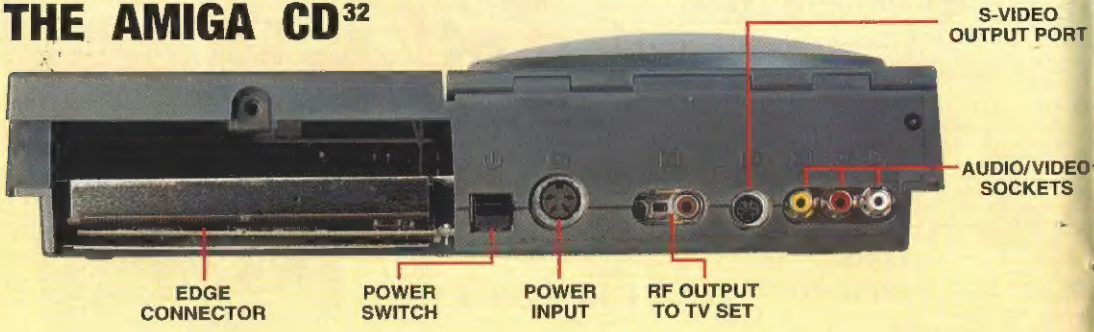
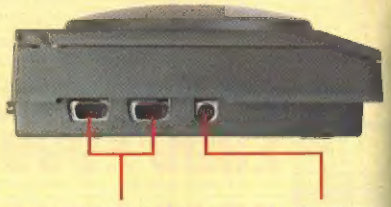
THE NEW AMIGA CD32

THE AMIGA CD32





THE WORLDS FIRST 32-BIT GAMES CONSOLE

- **32-BIT!**
  Inside any games console is a CPU (a central processor), which is responsible for the majority of the intense calculations needed when playing games. The CD32 has a 32-bit CPU, rather than an old style 16-bit CPU, as used in Sega and Nintendo consoles. This 32-bit CPU is capable of playing far superior games to 16-bit CPUs, because it can transfer twice as much information in the same amount of time. Therefore, the CD32 is capable of playing games that would be technically impossible on 16-bit consoles.
- **WATCH FILMS**
  Soon films will be available on CD in a standard called 'Video CD'. The Amiga CD32 features a dual speed drive which, with a special adaptor (available late 93), can play these films. Because CD32 is digital, pictures are reproduced in perfect quality, with freeze frame shots looking like still photographs, not the fuzzy images created when you pause a video tape. And, unlike tapes which need to be wound backwards and forwards to find pictures, films on CD can be accessed immediately at the point you wish to view. No time delay and no wear and tear on tapes or mechanisms.
- **PLAY GAMES**
  With considerably more space to fill (600 floppy disks per CD), with sound, graphics and gameplay, games on CD can be much more sophisticated. With its unique double speed drive and adaptor, real video shots occupying the full screen can be incorporated into games. To ensure you get the very best from CD games, some manufacturers have already spent over £1,000,000 developing a single title!
- **LISTEN TO MUSIC**
  CD32 will accept any standard music CD or CD+G (compact disc with graphics). So, you can use it to play your favourite hits, just like a standard CD player.
- **READY FOR THE FUTURE**
  You can be sure that Commodore mean business with the CD32. They took time to develop their Amiga systems, and launched them when the competition was well established. Now the Amiga is the best selling home computer in the UK.
  At a time when Commodore are launching the Amiga CD32, SEGA already has the Mega CD. But, the development of the CD32 has been meticulous and sure, to produce the world's first 32-bit games console with advanced features, superior power and performance. Check out the chart to the right and decide for yourself.

TECHNICALLY SUPERIOR

AMIGA v SEGA

	CD32	MEGA CD
CentralProcessor	68020EC	68000
Power	32-bit	16-bit
Speed	14Mhz	12.5Mhz
Standard RAM	2048K	128K
Colour Palette	16.8 million	512
Max Colours On-Screen	256,000	64
Full-Screen Video CD	Optional	No
Dual-Speed CD Drive	Yes	No
4 Voice Stereo Sound	Yes	Yes
Multi-Session	Yes	No
S-VHS Output	Yes	No
Maximum Resolution	840 x 640	300 x 200
CD Titles From	£19.95	£39.99
Price:	£289	£398*

*The Mega CD (£269) will only work when plugged into the Mega Drive (£129), therefore the price shown is the total combined price of both models. The Amiga CD32, however, is a standalone system which works without additional units.

AMIGA CD32 GAMES CONSOLE

AMIGA CD32

We are pleased to be able to offer you Commodore's latest innovation - The Amiga CD32. This NEW console offers more than ever before, with 32-bit processing power and 16.8 million colours, plus built-in CD-ROM drive, nothing else comes even close. And all for just £289!

- **32-BIT POWER**
  The world's first console to use 32-bit technology the 68EC020 Processor runs four times as fast as a 68000 Processor
- **MILLIONS MORE COLOURS**
  A massive palette of 16.8 million colours with 256,000 on screen at once - no other console even comes close!
- **STEREO SOUND QUALITY**
  Full CD quality stereo sound - just like your hi-fi!
- **LOW COST GAMES**
  Prices for quality games start BELOW £20! (see page 20)
- **TV or MONITOR**
  The CD32 plugs into your TV and most monitors
- **DUAL SPEED**
  Transfers data almost twice as fast as ordinary CD-ROM drives - makes it ideal for full screen Video CD
- **MULTI - SESSION**
  CD32 can recognise ALL the data on CDs, even if information has been added after its initial pressing
- **FULL SCREEN VIDEO CD**
  Via an optional extra module which allows you to watch films on the CD32 - compatible with the latest Video-CD standard, endorsed by JVC, Matsushita, Philips and Sony
- **HUGE MEMORY**
  2Mb of memory for massive games
- **CONTROL PAD**
  11 button omnidirectional pad with colour coded buttons
- **OSCAR & DIGGERS SOFTWARE**
  Two great games specifically adapted for the CD32 together on one CD

FREE! FREE COPY OF LEMMINGS FROM SILICA WITH EVERY AMIGA CD32 CONSOLE

AMIGA CD32 SOFTWARE

CD32 TITLES

The sizzling success of the CD32 makes the race to bring out the biggest and brightest titles of the utmost importance. The standard of CD32 software product is already on the rise, the most familiar software classes - adventure, arcade and simulation - have been redefined and the impossible made possible to allow you to experience an extensive range of entertainment

ARCADE REVOLUTION - Take the best of the latest coin-op crop, add state of the art sound effects and take the graphics details to levels so far unseen on home games consoles. The CD32's ability to store and manipulate vast amounts of information means that arcade games will have more levels than can be possible squeezed into ROM cartridge or PCMCIA card, more monsters than can be mentioned in an instruction booklet, and more than enough traps to fuel hundreds of gaming sessions

ADVANCED ADVENTURES - Forget the frozen frame and all text computer adventures of the past. The CD32 combines live action with flexible icon controlled decision-making environments which take players into realms of mystery. Full 16-bit stereo sound sampling facilities provide realistic background effects which seem to surround players who are wearing optional headphones, while the CD32's hardware-based graphics features ensure that the brittle illusion of reality is never broken

INTERACTIVE MOVIE TIE-INS - Why be tied to the screen when you can be part of it? Many of the latest releases are based upon new blockbuster films such as Jurassic Park and Dracula. Most include over one hour of digitised film footage and new sequences which can be manipulated to make it appear as if the player is affecting events on the screen. The results put Hollywood on the doorstep and provide film entertainment long after that initial trip to the cinema

FULL MOTION VIDEO

WITH OPTIONAL FMV BOARD

Take part in the interactive movie sensation. Now that normal 5¼" CDs can be used to store up to 74 minutes of live action video and stereo sound together, CD32 owners can look forward to a huge selection of the most technologically advanced games ever produced.

Imagine being able to move through realistic 3D perspective movie landscapes, taking on smoothly animated, easily recognisable opponents, experiencing battles that you've seen on the big screen. And very soon, film companies will enter the fray, producing Video CDs of their film titles or converting titles from its VHS library to CD. Many of the world's largest companies have announced their support for Digital Video, these companies include Philips, JVC, 3DO, GoldStar and Samsung. Soon the worlds of film and gaming will link up. Some Hollywood film and television companies have already started to create specially commissioned games which link in with big film titles. Film tie-in games will contain characters acted by big star names and you will be able to control their destinies.

COMPACT disc DIGITAL VIDEO

FULL MOTION VIDEO IS THE FUTURE OF HOME ENTERTAINMENT. MAKE SURE YOU DON'T MISS IT!

JAMES POND 2

Its the latest version of the best selling trilogy Robocod. James Pond, that clever ozone-friendly cod character is back as usual in the wrong place at the wrong time. He's been given five more gruelling missions to fight his way through before he'll be putting his fins up. Keep your reflexes sharp though as I'm sure Dr Maybe has had a lot to do with these extra missions. Sounds as if James Pond is in real deep water this time so its up to you to help him out. Dr Maybe has a long memory so stay sharp, he could be just around the next corner.

All five levels are accompanied by an array of several fantastic CD tracks

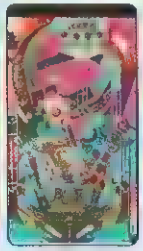
BILLION DOLLAR GAME SHOW



PARTY LAND

SPEED DEVILS

STONE 'N' BONES

PINBALL FANTASIES

Experience four amazing super fast, pin sharp, graphically colourful pinball worlds, and not a coin slot in sight! One of the best pinball simulations to date is now available offering four pinball table worlds - see left. At all levels you will find yourself hammering home your steel balls using four on-screen quick reflex paddles through a series of roll-overs, ignition letters, ramps, targets and traps. You will find each specially designed table has its own distinctive theme and style with superb 50 frames per second graphics and sound effects. You won't have to play alone - up to eight players can play against each other. It's probably as close as you can get to the real thing, on a computer, and every flip of the ball is free.

PLUS! - COMPATIBLE CDTV TITLES HIGHLIGHTED ON PAGE 22

A570 AMIGA 500 UPGRADE

UPGRADE YOUR A500 TO A STATE OF THE ART CDTV PLAYER

CDTV INTERACTIVE MULTIMEDIA

A500 & A500PLUS UPGRADE

Explore a new world of interactive audio visual entertainment without leaving the familiar keyboard of your Amiga 500. This Compact Disc-playing add-on simply clips to the side expansion port of your Amiga and is immediately ready to deliver its power. From there you'll discover that CDTV discs can store high definition colour images and millions of words as well as all of the more usual audio tracks you will find in high street record stores

LOOKING TO THE FUTURE

CDTV discs are also being used as a storage medium by software companies who are continually looking for ways to upgrade the graphics and sound capabilities of games, educational and multi-media presentation packages. Just think, a single CD can hold the equivalent of 600 floppy disks, so imagine the game sizes of the future! 30Mb? 60Mb? The complexity and performance of such arcade and strategy games will only be restrained by the determination of software programmers and the processing power of the computer.

THE IDEAL CHOICE

The high specification Amiga upgrade is the ideal choice and CDTV is not just for the forward-looking arcade game player. The storage potential of CD means that the text, diagrams and colour photographs of encyclopaedic works covering such topics as art and science can be displayed on the screen. The co-processing power of the Amiga can then manipulate the text and images to your own requirements. It can also play standard music CDs incorporating all the stereo advantages of the latest digital recording techniques. But, for the price of a standard audio CD player you can have animated pictures, a wealth of text and not forgetting a high performance computer.

- *ENABLES YOUR AMIGA TO RUN CDTV SOFTWARE*
- *PLAYS NORMAL MUSIC CDs*
- *STORAGE CAPACITY EQUAL TO OVER 600 FLOPPY DISKS*
- *COMPATIBLE WITH CD+G AND CD+MIDI FORMATS*
- *TRANSFER TIME 152K/SEC*
- *EACH DISK HOLDS UP TO 540Mb (UNCOMPRESSED) OF DATA*

COMMODORE A570 CD INTERFACE

SPEED ●●●●●
Fast loading times as you'd expect, but the quick and easy installation is a nice bonus.

DOCUMENTATION ●●●●●
The manual is simply clear and easy to follow. It covers everything you need to know.

ACCESSIBILITY ●●●●●
It couldn't be much simpler - most of the time it's just plug in and go.

FEATURES ●●●●
Very versatile - capable of playing a number of different CD types. The casing design is poor.

VALUE ●●●●●
At £99 including CDPD and Hutchinsons it's fantastic value.

GOLD 92%

WHAT THE EXPERTS SAY

This is what *Amiga Format*, the UK's leading Amiga specialist publication, have to say about the A570 CDTV Add On for the A500

COMPLETE COMPATIBILTY

CDTV works with Amiga 500Plus machines, but older Amiga 500s require an internal modification and upgrade that enables your RAM expansion to be used as Chip RAM. Simply return your Amiga with a payment of £29.95 quoting REA 1000. This price assumes you already have a 1Mb Amiga. If you do not, you should add either £18.95 (RAM 0505) for a 512K RAM board without clock or £23.95 (RAM 0510) for a 512K RAM board with clock - see page 41.

FREE CD SOFTWARE

CDPD1 - INC FRED FISH RRP: **£19.99**
Over 600Mb of Public Domain software and shareware. Includes utilities such as word processors, databases, spreadsheets, games, applications, graphics, sound samplers and almost every kind of program you could ever want. Inc Fred Fish disks 1-660

HUTCHINSONS ENCYCLOPEDIA RRP **£29.99**
A fascinating and unique reference tool, containing the complete Hutchinson database including over 1.5 million words of fully indexed text with pictures from the Hulton picture library, sound recordings from the BBC sound archives and maps from ITN. An extremely interesting and educational interactive experience.

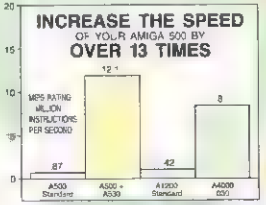
ACCELERATORS

A530 ACCELERATOR, HARD DRIVE & RAM BOARD FOR A500 or A500PLUS

SAVE £300 OFF PREVIOUS SILICA PRICE

- **40MHz 68030EC ACCELERATOR** Increased program speed by over 13 times and reduce data access time. Runs faster than a standard Amiga 3000/25MHz
- **INTERNAL SCSI HARD DRIVE** Contains a factory installed and tested 42Mb (or optional 80,120 or 213Mb) high performance internal hard drive
- **PERFORMANCE + RELIABILITY** SCSI Hard Drive Controller circuitry incorporates GVP's custom designed state-of-the-art VLSI DMA controller chip and FaaaSTROM technologies ensuring the same award-winning performance and reliability found on GVP's high-end A2000 Series II SCSI controllers.
- **INTERNAL FAST RAM EXPANSION** Speed up those memory hungry applications with an optional 8Mb of 32-bit Fast RAM. Install either 2Mb, 4Mb or 8Mb (1Mb is already fitted). Direct access to this RAM by the processor allows faster manipulation of data at speeds keener than the A500's own 16-bit memory (see below)
- **OPTIONAL 68882 MATHS CO-PROCESSOR** Speeds up math intensive operations eg spreadsheet and ray tracing (see below)
- **EXTERNAL SCSI HARD DRIVE INTERFACE** Allows connection of SCSI devices such as high-speed drives. Data transfers as fast as the drive can respond.
- **UNIQUE INTERNAL MINI-SLOT** Allows use of products such as PC emulators (REF EMU 0500 see page 26) without opening your Amiga's casing
- **TURBO SWITCH** Enables compatibility with most Amiga games
- **DEDICATED POWER SUPPLY AND INTERNAL FAN** A free power supply makes sure that the A500's PSU is not overloaded while the internal cooling fan ensures high performance from the accelerator and hard drive



A530

INCLUDES 2 SIMM SOCKETS FOR EXPANSION UP TO **8Mb RAM** 1Mb FITTED

A530 OPTIONS

GVP QUALITY PRODUCT

A1230 40MHz ACCELERATOR & RAM BOARD FOR THE A1200

GVP QUALITY PRODUCT

40MHz 32-bit BOARD

This powerful card from GVP is the ultimate accelerator for the A1200. This 40MHz 68030EC based board will turbo charge your Amiga 1200's processing speed by over 8 times. The A1230 has 2 SIMM sockets for 32-bit RAM expansion and an optional 40MHz 68882 FPU Maths Co-Processor (standard with 4Mb version see UPG 1992 below) for faster floating point computations. 0Mb & 4Mb fitted RAM options are available, but the sockets can also support an additional 1Mb SIMM (see RAM 3216 below), 4Mb SIMM's (see RAM 3246 below) or 16Mb SIMM's (coming soon). The board can be quickly installed inside the A1200 expansion bay and will not invalidate the Commodore warranty

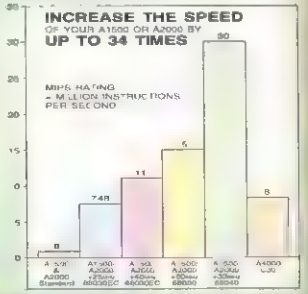
  40MHz 68030EC - 4Mb Populated - max 16Mb using 3 x 4Mb cards
  50MHz 68030 - 4Mb Populated - max 16Mb using 3 x 4Mb cards.
  33MHz 68040 - 4Mb Populated - max now 16Mb using 3 x 4Mb cards.
  16Mb cards available soon to expand the 68040 board to 64Mb.
- **BUILT-IN SCSI HARD DRIVE INTERFACE**
  All boards include a SCSI interface and controller for easy hard drive upgrade (see HAR 2066 below) The 33MHz 68040 also includes built-in serial and parallel port



- **HARD DISK PERFORMANCE**
  The G-Force's SCSI Hard Drive controller circuitry incorporates GVP's custom designed state of the art VLSI DMA controller chip and FAAASTROM ensuring award-winning performance
- **RAM TEST & 68000 FALL BACK SOFTWARE**
  Enables RAM memory checks and easy switching between the 68000 and accelerator processor giving full software compatibility.

EMULATORS

286 7.25MHz PC-AT EMULATOR - ATONCE CLASSIC

FOR A500 or A500PLUS

- *7.25MHz PC-AT 286 Emulator*
- *MS-DOS Compatible*
- *Centronics, Serial & Mouse Port Support*
- *Multi-tasks with AmigaDOS*
- *Supports Hard Disks*
- *Supports Up To 8Mb of Amiga RAM*
- *Emulates CGA, HGA, MDA, Olivetti and Mono EGA/VGA*
- *Quick and Easy to Fit*

SAVE £20 OFF RRP

ATonce is an amazing PC-AT 286 emulator for the Commodore Amiga A500 & A500PLUS providing compatibility with PC compatibles. You can now use many of the same applications available on office PC's at home with your Amiga. It runs at 7.25MHz with a landmark of 8.7MHz and supports most MS-DOS application software such as Lotus 1-2-3, Word Perfect and Windows 3.0/1.

NORMAL RRP ~~£99~~ INC VAT **£79** INC VAT

286 16MHz PC-AT EMULATOR

This 16MHz emulator, from GVP, gives your Amiga complete compatibility with 286 PC machines for running MS-DOS & Windows applications. The hardware package fits directly into the internal mini-slot of GVP's A500 HD8+ and A530 Series II hard disk add-on sub-systems (see pages 23 & 30). The PC-286 emulator is compatible with MS-DOS versions 3.2 or later and will run thousands of MS-DOS applications including Windows 3.0/3.1.

FOR AN AMIGA 500 WITH HD8+ or A530

- **16MHz PC-AT 286 Emulator**
  Providing a Norton Utilities Speed Index rating of 15
- **MS-DOS Compatible**
  Runs MS-DOS concurrently with AmigaDOS applications, running up to 15 times faster than the original IBM PC
- **80C287 Socket**
  Socket for 80C287 Floating Point Unit
- **Hard Disk/Floppy Compatibility**
  For use by MS-DOS and Read/Write MS-DOS compatible files using the internal/external floppy drives or HD8+/A530 Hard Disk
- **Built-in 512K RAM**
  For exclusive use by PC Software
- **Complete Emulation**
  Includes Video adaptor emulations of Hercules, CGA, EGA/VGA (monochrome only) and Toshiba 3100. Parallel/serial port support, sound, real time clock, CMOS RAM and extended memory are also supported

EMULATORS

286 16MHz PC-AT EMULATOR - ATONCE PLUS

FOR A500/A1500/A2000

ATonce Plus is an expanded version of the popular ATonce Classic (see page 26). This enhanced version runs at twice the speed of the original and is ideal for power hungry users. It has an extra 512K of pre-fitted RAM for use by PC applications, and has a socket for an optional 80287 math co-processor for even faster operation when using math intensive applications such as spreadsheets and flight simulators. Building on the success of ATonce Classic, it includes many of the same acclaimed features: compact SMT design, support of existing Amiga architecture (mouse, hard drives etc), emulation of popular PC graphics modes and simple instructions making fitting easy.

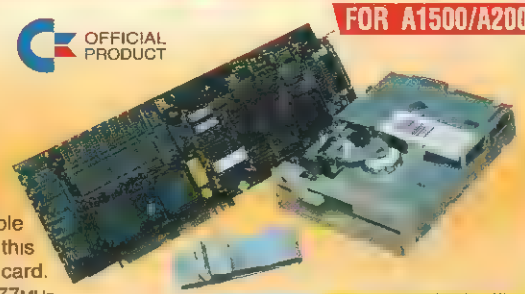
8088 4.77MHz BRIDGEBOARD & 5¼" DRIVE

FOR A1500/A2000

OFFICIAL PRODUCT

- *PC-XT 8088 4.77MHz Emulator*
- *512K Pre-fitted RAM*
- *Socket for Optional Math Co-processor*
- *Quick and Easy to Fit*
- *360K 5.25" Floppy Disk Drive*
- *MS-DOS 3.3 and GW BASIC with Manuals Supplied*



Allows your Amiga 1500/2000 to run IBM PC compatible software. The simple installation hides the fact that this upgrade is basically an IBM PC compatible all on one card. The board contains an 8088 processor running at 4.77MHz, 512K RAM and circuitry to run PC software. Also supplied is a 5.25" disk drive, allowing the Amiga to read standard PC disks. MS-DOS 3.3 and GW BASIC with manuals are also included, to make this upgrade the complete PC emulation solution for Amiga 1500/2000 owners.

AMIGA PERIPHERALS

FLOPPY DISK DRIVES

Why Buy A Second Disk Drive?

There are many good reasons why you should have a second disk drive. If you are running a word processing, spreadsheet or database application, a second drive enables you to run your application in Drive 1 and store data in Drive 2 – this saves time and the fiddly swapping of disks. In fact, many software titles are configured to make use of two drives.

BACK UP

Any program that comes with two disks will usually load faster if they are available simultaneously. Having a second drive also means you keep all your files on one disk, whilst your program is on the other.

If you have ever backed up a floppy disk before using only one drive, you will know what a painful experience it is having to change the source and destination disk every few seconds. With a second drive your source disk goes in one drive and destination in the other. You can then leave all the hard work to the computer. Having a second drive is a real bonus

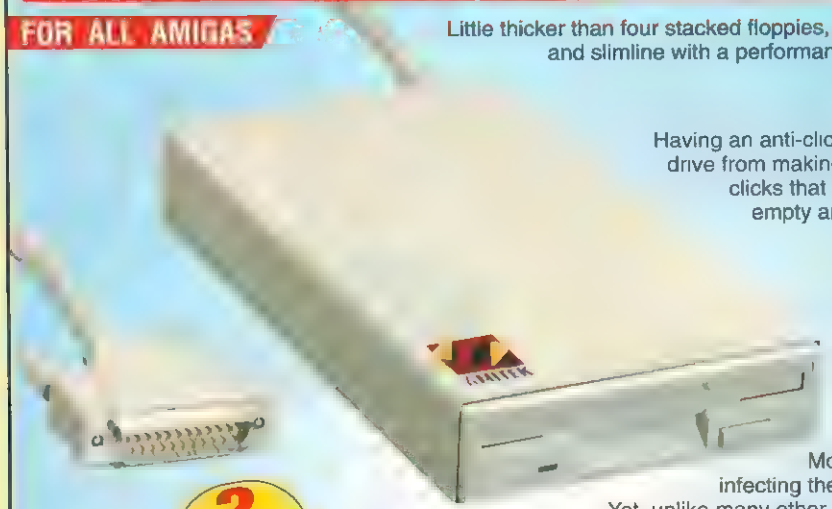
WHICH TYPE

There are two main types of floppy disk drive: the internal drive, (these have no outer casing) for use on the A500 (as a replacement drive) A1500/2000, and the external drive that sits next to your computer system as opposed to inside the casing. These external drives generally work with all Amiga computers, but we recommend that you check individual specifications on each drive for full details of compatibility with your Amiga system.

3½" 1Mb EXTERNAL DRIVE - AMITEK ANTI-VIRUS

FOR ALL AMIGAS

Little thicker than four stacked floppies, this drive is lightweight and slimline with a performance that leaves all other Amiga drives standing.



ANTI-CLICK

Having an anti-clicking feature stops your drive from making the lengthy whirs and clicks that occur when the drive is empty and searching for a disk

ANTI-VIRUS

It also has three switch settings. Disabled, this turns off the drive (especially useful when running memory hungry programs). Enabled, for normal use, and an Anti-Virus Mode which stops viruses infecting the disk while in the drive. Yet, unlike many other drives which have virus killers, this Anti-Virus Mode can be disabled allowing some fussy copy protected software to run.

2 YEAR WARRANTY

ADD DRIVES

As a double sided mechanism the Amitek drives give 880K of disk space after formatting. It is also daisy-chainable, which means that you may add further drives - it runs using very little power so doesn't suck precious volts from your Amiga.

AMITEK

- *Solid Reliable Design*
- *Enable/Disable Switch*

HARD DISK DRIVES

PLUG-IN 20Mb A590 HARD DRIVE & RAM BOARD

FOR A500 or A500PLUS

SAVE £150
OFF PREVIOUS RRP OF £299

This is the official hard disk for the Amiga 500 or 500PLUS that offers plug-in power at a very special price. The unit sits directly next to your Amiga and its styling is complimentary. It features a SCSI interface for additional external drives, CD ROMs, scanners or optical drives and supports autobooting which means your Amiga can be started up from the hard drive. The DMA controller is a true interface between the 68000 processor and the hard drive and allows a maximum transfer rate of 2.4Mb per second which is about 10 times faster than a floppy disk. It can also be configured to provide additional memory up to 2Mb RAM (see below)

- *20Mb Hard Drive*
- *Sockets for up to 2Mb of Fast RAM*
- *2.4Mb/sec Maximum Transfer Rate*
- *SCSI Interface for up to 7 Peripherals*
- *External PSU + Built-in Fan*
- *Auto Configuration*

GVP QUALITY PRODUCT

- ***SCSI HARD DRIVE***
  Choice of factory-installed and tested 42, 80 or 120Mb, high performance SCSI hard drive. Stores up to the equivalent of 47, 90 or 136 1Mb floppy disks!
- ***HARD DRIVE PERFORMANCE***
  SCSI Hard Drive Controller circuitry incorporates GVP's custom designed state of the art VLSI DMA controller chip and FAAASTROM technologies ensuring the same award-winning performance as found on GVP's high-end A2000 Series II SCSI controllers.
- ***INTERNAL FAST RAM EXPANSION***
  2 built-in SIMM sockets for easy-to-install FAST RAM expansion. Install 2Mb, 4Mb or 8Mb of FAST RAM for speeding up those memory hungry applications (see below).
- ***EXTERNAL SCSI PORT***
  Attach up to six additional SCSI peripherals
- ***UNIQUE INTERNAL MINI-SLOT***
  Internal mini-slot expansion connector allows optional modules to be added inside the A500HD8+ case ensuring that your Amiga 500 never needs to be opened. For PC emulator (ref: EMU 0500) see page 26
- ***GAME SWITCH***
  Exclusive Game Switch allows hard drive to be disabled for full compatibility
- ***DEDICATED POWER SUPPLY & FAN***
  Power supply ensures the A500 is not over-loaded and provides power to internal fan for cool, reliable operation
- ***PLUG-ON EXTERNAL MOUNTING***
  Simple plug-in connection to the side of your A500 or A500PLUS
- ***RELIABILITY THROUGH TECHNOLOGY***
  GVP achieve a high degree of integration through state-of-the-art custom VLSI technology ensuring optimal reliability and longer life

EXTERNAL PLUG-IN 3½" HARD DRIVE

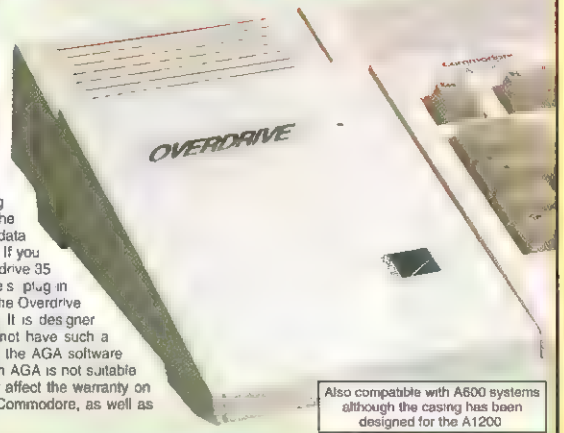
FOR THE A600/A1200

NEW!

FREE! SOFTWARE

CIVILISATION
Every Overdrive 35 plug in hard drive from Silica comes supplied with a free copy of the AGA version of the popular life simulation game Civilisation in which you aim for world domination - A1200 only
WORTH: £39.99

If you already own an Amiga 600 or 1200 and require a hard drive, the Overdrive 35 is the ideal peripheral. You may have regretted not purchasing your Amiga with an internal hard drive already fitted - don't worry. Because the Overdrive 35 plugs into the PCMCIA-2 port on your computer, it allows data transfer at over twice the speed of internal drives using the internal interface. If you already have an internal hard drive fitted to your Amiga, you can use the Overdrive 35 as a second drive adding even more storage capacity. The Overdrive's plug in capability means that you can use your hard drive on other Amigas - making the Overdrive a flexible and portable storage unit. And the Overdrive 35 looks good too. It is designer styled to match your Amiga 1200 casing perfectly (Amiga 600 owners will not have such a cosmetically sleek combination). An added bonus for Amiga 1200 owners is the AGA software 'Civilisation' which comes free from Silica with every Overdrive 35 (Civilisation AGA is not suitable for use with the A600). Because the Overdrive is a plug-in model, it will not affect the warranty on your Amiga. It comes with an external power supply, as recommended by Commodore, as well as special configuration software.



Also compatible with A600 systems although the casing has been designed for the A1200

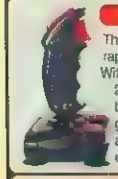
AMIGA ACCESSORIES

JOYSTICKS ALL AMIGAS

CHEETAH 125+

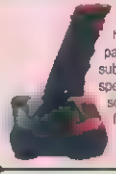


The Cheetah 125+ Leaf Switches help give a rapid response to all your joystick movements. With 4 extremely sensitive fire buttons - that's 2 in the handgrip and 2 in the base - blasting those aliens is a delight. This joystick will give you the edge. Includes a switchable autofire facility and base suckers for that extra stability.

- Leaf Switches
- 4 Fire Buttons
- Autofire Facility
- Base Suckers
- Left or Right Handed

NORMAL RRP £9.99 INC VAT — £8.49 INC VAT JOY 0725

CHEETAH MACH 1

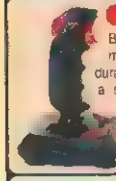


If you prefer the one-handed, seat of the pants, approach to blasting your foes into submission, Cheetah have designed this Mach speed stick to fulfil just that function. The sleek solid base contains a rapid action slider switch for the built-in autofire function and the four powerful suction cups on the bottom of the solid base ensure a firm grip is maintained.

- Microswitches
- Rapid Action Autofire
- Ergonomically Designed
- Base Suckers
- Robust Metal Shaft

NORMAL RRP £12.99 INC VAT — £11.99 INC VAT JOY 0

CHEETAH STARPROBE DELUXE

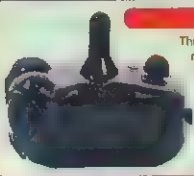


Built with a high grade metal shaft, even the most reckless gamer will be pleased with its durability. And with its rapid action autofire button a stream of power packed blasters or laser guided missiles will have your targets easily picked off. Shooting couldn't be more comfortable either as this joystick has been ergonomically designed.

- Microswitches
- Rapid Action Autofire
- Ergonomically Designed
- Base Suckers
- Robust Metal Shaft

NORMAL RRP £14.99 INC VAT — £12.99 INC VAT JOY 0

CHEETAH BUG BLACK



The BUG is the result of extensive research in respect of ergonomics and reliability. Being the most comfortable controller available, the BUG sits snugly and neatly in the palm of the hand to ensure longer term playability. Equally suited for left or right handed players, with large or small hands.

- Microswitches
- Autofire Facility
- Ergonomically Designed
- Hand Held
- Left or Right Handed

NORMAL RRP £14.99 INC VAT — £12.99 INC VAT JOY 0

CHEETAH BUG GREEN

As a result of extensive research Cheetah's Green Bug Joystick is the most comfortable palm of the hand controller available. Equally suited for either left or right handed players, the ergonomically designed stick is fully microswitched with two touch positive fire buttons and has a rapid autofire facility.

- Microswitches
- Autofire Facility
- Ergonomically Designed
- Hand Held
- Left or Right Handed

NORMAL RRP £14.99 INC VAT — £12.99 INC VAT JOY 0

COMPETITION PRO 5000

This black based joystick is ergonomically designed for use by either left or right handed players. A rubber neck around the unbreakable steel shaft auto centres the stick when you let go, instantly putting your space craft or [illegible] car back on a straight course. This stick is ideal for such games as IK+ and Speedball. It's a real must for all serious Amiga game players.

- Microswitches
- 2 Fire Buttons
- Auto Centring
- Hand Held
- Unbreakable Steel Shaft

NORMAL RRP £13.99 INC VAT — £12.95 INC VAT JOY 0

- 4 suction cups

NORMAL RRP £7.49 INC VAT — £6.99 INC VAT JOY 0

QUICKSHOT INTRUDER I

The twin dual speed turbo fire selector combined with 2 positive response fire buttons and omni directional grip will turn you into a professional alien and monster slayer. A pop up fire button cover keeps the mechanism free of dust and is reminiscent of the flight control technology used on many real, as well as fictional, space vehicles.

- 2 fire buttons
- Pop-up fire button cover
- 2 dual speed turbo fire selectors
- Omnidirectional grip
- 6 foot cable
- 4 suction cups

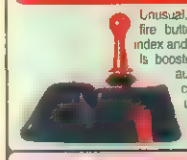
NORMAL RRP £27.99 INC VAT — £24.99 INC VAT JOY 0

SLIKSTICK

- One fire button
- Budget priced
- Very reliable
- Long life
- Convenient handy size
- Long cord

JOYDEX RRP £7.49 INC VAT — £6.49 INC VAT JOY 0

SPEEDKING TURBO

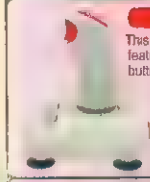


Unusual, palm of the hand joystick with fire buttons directly under your thumb, index and second trigger fingers. Firepower is boosted by a similarly easy to reach autofire with simple ON/OFF configuration - the result is instant, unrelenting and above all else, regular weapons repeat. This stick is almost unbreakable.

- Fire button right under trigger finger
- Easily accessible autofire with on/off switch
- Fits into palm of hand
- Metal shaft stick

NORMAL RRP £12.99 INC VAT — £10.99 INC VAT JOY 0

TAC 50



This stick includes an amazing array of features: amongst them you'll find four fire buttons one of which is located at the trigger finger, variable autofire, and trigger finger grip for precise control. Digital microswitch array technology and aircraft-style grip ensure tactile and audible feedback, and lots more features.

- Digital microswitch
- 4 fire buttons
- Tactile and audible feedback
- Sure grip aircraft-style grip
- Four suction cups

NORMAL RRP £14.99 INC VAT — £12.95 INC VAT JOY 0

NIGEL MANSELL FREEWHEEL

NEW!

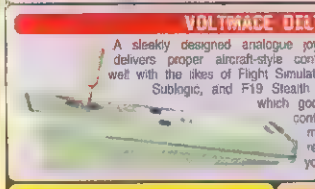
Bring all the realism of the race track to your Amiga but retain the flexibility of joystick control. Plugged into an ordinary joystick socket, Freewheel can be tilted forward to accelerate, backwards to decelerate, and turn left or right to bank in those directions. 2 positive response buttons on the inner rim of the wheel provide firepower for futuristic games and the robust design with few moving parts ensures a long life for this controller. Available in analogue or digital versions.

- For driving and flying games
- Angle sensitive control
- 2 fire/action buttons
- Plugs into joystick socket
- No need for tab & top base

The analogue version gives a more precise movement control.

ANALOGUE £39.99 INC VAT — DIGITAL £27.99 INC VAT JOY 0

VOLTMACE DELTA 3A

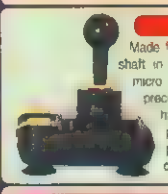


A sleekly designed analogue joystick that delivers proper aircraft-style control. Works well with the likes of Flight Simulator II from Subiogic, and F19 Stealth Fighter in which good joystick control is a must for fast reaction in your aircraft.

- Allows proper aircraft control
- 3 fire buttons
- Suitable for Flight Sim II & F19 Stealth Fighter

NORMAL RRP £16.95 INC VAT — £14.95 INC VAT JOY 0

ZIPSTIK SUPER PROFESSIONAL



Made from high impact plastic, with a steel shaft in the handle and purpose designed micro switches for greater sensitivity, precision control and higher scores. It also has an extra long lead for comfort while playing. Other attributes include a powerful regular and racy autofire option and a self-stabilising handle.

- Microswitches
- Autofire
- Hand held or table top
- Self centring handle
- Non slip rubber pads

NORMAL RRP £14.99 INC VAT — £12.95 INC VAT JOY 0

CABLES & ADAPTORS FOR JOYSTICKS

MODEMS

ALL AMIGAS

AMIGA PERIPHERALS

REACH OUT AND MAKE CONTACT

A modem allows your Amiga to connect to other Amigas, or larger computers, giving you access to databases carrying all types of information

Like most computer products there are numerous types of modems and many manufacturers. The crucial difference between modems is the rate at which they send and receive data (the baud rate) this can vary from a slow 75 to an extremely quick 9600. It's important to note that modems will only talk to each other if they use the same characters per second (CPS) rate while some modems can adapt the rate at which they send and receive data. As a rule of thumb it is wise to buy the fastest modem you can afford. But which modem should you purchase? Consider our check list

• Is the modem approved by British Telecom (BABT)? • Auto Answer Will it automatically connect to the computer at the other end of the phone line? • Will it automatically re-dial an engaged line? • Will it support a variety of baud rates • Your phone line connection crackle which will disrupt the quality of the signals being transmitted. Will the modem be able to clean up that noise and make the signal stronger?

The Pace Modems on this page are all British Telecom (BABT) approved and so can be legally linked to BT lines/apparatus. They are also Hayes Compatible which means they conform to the UK industry standard command set for modems.

SILICA BULLETIN BOARD

As part of our service Silica operate a 'Technical Support Bulletin Board' which is available free, you only pay for your phone call. This is an electronic telephone service available to modem users, which allows you to call us 24 hours a day. Like an old fashioned notice board, you can leave messages or questions which are then answered. And you can also transfer files and programs electronically over the phone lines by downloading them to and from your computer. The BBS also has special areas allocated for our major product lines where your common questions can be answered and has a massive range of free software which you download. To use our BBS, set your system for 1 stop bit, no parity and 8 data bits. The BBS supports speed up to 14,400 HST/32 BIS on 081-309 5258/7 and 2,400 on 081 309 5260. Alternatively to talk to our technical support team call 081-309 1111

MONITORS

Using a TV?

SWITCH TO A MONITOR AND SEE WHAT YOU'RE MISSING

If you are currently using your Amiga with a domestic television set, then you are missing out on picture quality.

Unfortunately, because your TV is used to receiving low quality UHF transmissions from the airwaves, it will usually only have a UHF socket. So, your computer has to downgrade its high quality digital RGB (Red, Green, Blue) signal to UHF to enable your TV to receive it. However, because your TV can only display using RGB, it has to convert the UHF signal back to RGB before it can put a picture on the screen. Of course, every time you convert from one signal to another there is a loss of quality which means that the final picture on the TV is not as good as the original signal from your computer.

You can overcome this with a monitor which has RGB rather than UHF signal standard. Your computer will recognise this, and send its original RGB signal to the monitor which will display the image directly to the screen with no loss of quality. Some monitors are pleasing to the ear as well as to the eye, incorporating loudspeakers to carry the sound from games. Many of the latest models even include stereo sound, adding even more realism to your games software.

Commodore's new AA Chipset (as fitted to the A1200 & A4000) requires a monitor that can go up to 31.5KHz to access the new top end resolutions. See the Commodore 1960 below.

PHILIPS 8833 MKII STEREO MONITOR

This versatile colour monitor with high definition resolution of 600 dots x 285 lines has a text switch for optimum text display and dark glass screen which avoids the eye strain. The monitor has twin speakers for stereo output and, for a quiet life, sound is also available through an earphone socket. Six external controls include: Volume, Saturation, Brightness, Contrast and a Green Switch.

SAVE ALMOST £95 OFF RRP

- .42mm DP 14" Colour Screen
- 600 dots x 285 Lines Resolution - 15.75KHz
- Analog RGB Digital TTL and Composite Video
- Anti-glare Dark Glass Screen
- External Controls: Volume, Green Switch, Saturation, Contrast, Brightness, Horizontal Shift
- Stereo Sound

COMMODORE 1940 & 1942 MULTI-SYNC MONITORS

- .39mm or .28mm DP 14" Colour Screen
- Up to 1024 x 768 lines resolution 15.75KHz + 31.5KHz + 35.5KHz
- Analog RGB, Digital TTL and Composite Video
- Anti-Glare Screen
- Support all A1200 and 4000 Enhanced Screen Resolutions
- Free Amiga Cable & A1200 Monitor Adaptor

SUPPORTS AA CHIPSET
Fully compatible with all A1200 & A4000 screen resolutions

Both these monitors are of the highest quality and being multi-sync they are fully compatible with the wide range of A1200 & A4000 screen resolutions (up to 1024 x 768 lines). The 1940 displays a superbly sharp picture, but for the perfectionist who demands nothing less than the best, the 1942 with its super fine .28mm dot pitch is the only choice.

MONITOR ACCESSORIES

CONTROL CENTRE

FOR AMIGA 600

- Professionally Houses Amiga 600
- Tidies Messy Wires
- 2 Shelves for TV/Monitor & Floppy Drives
- Includes View Centre & Centre Expander

Transform your Amiga and be rid of all those messy wires with the A600 Control Centre comprising View Centre and Centre Expander. The Control Centre performs 2 vital functions, providing 2 shelves for the storage of a TV/monitor, disk drives or other peripherals and tidying all those messy cables which clutter your worktop. The Premier Micros Control Centre can also be easily upgraded with another layer/shelf (see MOA 1480 listed below).

ANATOMY OF A SOUND SAMPLER

A standard sound sampling package represents musical samples as numerical digital constants and, most often, displays them as the peaks and troughs of a sound frequency graph which are input through the Amiga keyboard, mouse, joystick or MIDI compatible music keyboard. These representations can be manipulated using an editor facility which allows you to play the sound back in reverse, mix, overlay, insert or chain it within another sample. Special effects such as echo, reverberate, flange, chorus and distort can be introduced changing the quality and nature of the sound. Once the digitised sound has been altered to your satisfaction, it can be output to mono and stereo speakers. The results are as impressive as your imagination and can be input for use in other Amiga multimedia products, such as Scala and presentation packages.

MEGAMIX MASTER - 8-BIT SAMPLER

FOR ALL AMIGAS SAVE £10 OFF RRP

Your Amiga is capable of extraordinary sounds, reproducing complex wave forms, via its 4 audio channels. It is fully multi-tasking and compatible with Workbench 2.0. The package plugs directly into the Amiga printer port, runs perfectly on the A500PLUS and samples mono sounds up to 52KHz and stereo to 26KHz. Special effects such as echo can be added in realtime which is perfect for Karaoke singers and other performers who want to get live sound through the portable hi-fi.

- Powerful Multi-tasking Sound System
- 3D Menu Control Icons
- UNDO Facility For Most Functions
- Oscilloscope Wave Analysis
- 4 Audio Playback Channels
- Song Sequencer Strings Samples Together
- 4 or 8 Track Sampling
- Mono & Stereo Sampling

DIGITAL SOUND STUDIO 8+ - 8-BIT SAMPLER

FOR ALL AMIGAS

GVP QUALITY PRODUCT

- 4-track Music Sequencer
- Create Instruments with 1, 3 & 5 Octaves
- MIDI-IN capability (MIDI interface req'd, see next page)
- Oscilloscope & Spectrum Analysis
- Stereo & Monophonic Operation
- Graphic Editing of Wave forms, Raw Sound Waves
- Sound Tracker File Compatible
- Save in IFF, SONIX or RAW Formats
- Superior Sound Quality
- ARexx Compatible
- Microphone Input
- Unique 'See Through' Design
- Samples Disk

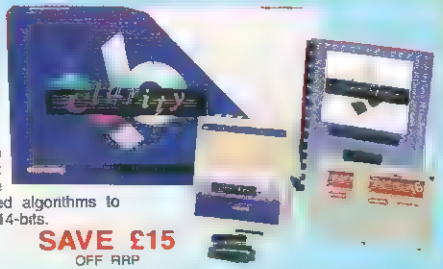
DSS8+ offers complete hardware and software solutions for recording, editing and composition of 8-bit digital sound and music on your Amiga. GVP's Digital Sound Studio hardware can reproduce complex 8-bit wave forms in stereo via 4 audio channels. Effects such as echo, reverb and fades can be easily introduced within the samples and output through the 4-stereo channels either to your monitor or any amplifier.

DSS8+ **£69** INC VAT MUS 2510

CLARITY 16 - 16-BIT SAMPLER

FOR ALL AMIGAS

This fully multi-tasking sampler with Windows-style editor can load samples in 8-bit or 16-bit formats and freely convert between them. Sample rates of up to 44.1KHz can be used, but the editor can re-synthesise samples to practically any other speed. Samples can be replayed through the stereo 16-bit cartridge output, or played through the standard Amiga output using advanced algorithms to obtain an incredible sound resolution of 14-bits.



SAVE £15 OFF RRP

- 8-bit or 16-bit Samples
- Sample Speeds up to 44.1KHz
- Realtime Special Effects include Echo, Flange, Chorus & Distortion
- Realtime Mono/Stereo Oscillators
- Realtime Mono/Stereo Fast Fourier Transformations
- Complete Keyboard Settings can be Saved
- Handles MIDI or Prophet 2000 Samples
- Transforms Amiga into Multi-voice MIDI Keyboard Emulator
- One Track Sample Sequencer

SCANNERS

IMPROVE YOUR IMAGE WITH A SCANNER

WHAT IS A SCANNER?

A scanner is an electronic device which "scans" an area, breaking down what it "sees" or "scans" into digital information which can be transferred to, and recognised by, a computer. Once in the computer's memory, the information will recreate a picture on your computer screen, of the image you have scanned. Whilst in memory, you can manipulate the image, with the graphics software supplied, before saving it as a file for printing, or for inclusion in a word processing or desktop publishing (DTP) document.

CAPTURE 1000 WORDS IN 3 SECONDS!

'A picture paints a thousands words', is a well-known saying, referring to the powerful description value of a picture to communicate, in seconds, information which would take much longer to say in words. Now, with a scanner attached to your Amiga, you can capture photographs and drawings to use within your documents in just a few seconds, helping you to communicate your ideas in a new and refreshing way. And, not only can you include the pictures of your choice, with appropriate software you can change their size, shape or appearance any way you like!

HANDHELD GREY SCALE SCANNER V2

FOR A500 or A500PLUS

POWER SCANNER

This powerful 400dpi greyscale scanner out-performs many other hand held scanners that cost more than twice the price. The Power Scanner comes supplied with full image editing software to help you transform your scan into a standard image format for use with all popular graphics and business presentation packages.

- 200dpi
- 262,000 Colours
- Free Software

This superb full colour A6 scanner is the right choice if you want to enhance your business presentations, fully maximise the power of sophisticated desktop publishing packages or add high quality graphics to your video presentation. The JX100 scanner supports more than 208 Amiga resolutions including HAM, PAL overscan and ARES (4096 colours in hi-res). It has a resolution of 200dpi (dots per inch) and comes with the powerful yet easy to use Scanlab 100 software package (which requires a minimum of 1Mb RAM).

NORMAL RRP ~~£449.95~~ INC VAT | SCA 6100 £399 INC VAT

ACTION REPLAY

FOR A500/A500PLUS/A1500/A2000

THE WORLD'S MOST POWERFUL FREEZER UTILITY CARTRIDGE

Now you can conquer the Amiga's hardest games with this power-packed freeze game screen cartridge. It's incredible abilities allow you to slow the action of the most difficult games, edit game levels, save pictures and music to disk and gain complete control over the functioning of your joystick. General features for the most determined programmers include a virus detector, program debugger, disk copier, disk boot selector and file requester to name just a few.

EGS SPECTRUM 24-BIT GRAPHICS CARD FROM GVP

FOR A1500/A2000/A3000/A4000

SPECTRUM

Go beyond AGA graphics with this complete hardware and software solution. Experience high-resolution, 16 million colour graphics using the EGS SPECTRUM and EGS retargetable graphics device library system

- *Fully Programmable Resolutions from 320 x 200 to 1600 x 1280*
- *16.7 Million Colour Palette*
- *Amiga RGB Pass-Through for Single Monitor Solution and 100% Software Compatibility*
- *Hardware BLiTTER to Accelerate Intuition Windows*
- *MultiGFX™ Technology Allows Multiple Boards in a Single Amiga*

EGS Spectrum takes the Amiga beyond AGA and into the world of true colour high end graphics. It is supplied with EGS Paint, a 24-bit real time paint package including Pantograph™ painting turbo air-brush and real-time 16 million colour painting tools. Also included are the EGS Retargetable Graphics Libraries which allow programmers to concentrate on writing bug free software without the worry of which graphics boards it will run on - with EGS libraries, it will run on them all! The EGS Spectrum is capable of displaying video resolutions (NTSC PAL and SECAM) up to 1600 x 1280. It also adapts automatically to either a Zorro II (16-bit) or Zorro III (32 bit) Bus and supports Workbench 2.04, 2.1 and 3.0 to take maximum advantage of its environment. EGS Spectrum comes supplied with a Workbench emulation that allows programs to run through the EGS board quicker and with more colours. Requires 2Mb RAM and a hard drive.

IMPACT VISION 24 24-BIT GRAPHICS CARD WITH FRAME GRABBER, GENLOCK, PIP & FLICKER FIXER

ALL IN ONE BOARD

FOR A1500*/A2000*/A3000/A4000

A giant amongst Amiga-based hardware/software packages, the Impact Vision 24 board provides an all round video manipulation and creation environment. Not only does IV24 provide a complete suite of facilities all on one board, it also comes with the Amiga's best 3D rendering application, Caligari 24, and a host of powerful graphics software titles included in the price!

FEATURE PACKED

The following are just some of the many features offered by IV24's hardware.

- 1.5Mb 24-bit RGB Frame Buffer with 16.7 Million Colour Palette
- Up To 768 x 580 Resolution
- Picture In Picture - For multimedia presentations
- Real-Time 24-bit Frame Grabber
- Scan Rate Converter/Flicker Fixer
- Professional Quality RGB and Composite Genlock
- Video Splitter
- VIU-S/CT - For multiple input/output ports

PROFESSIONAL SOFTWARE INCLUDED

IV24's hardware is supported by a refined suite of graphics manipulation and creation programs which can be used to produce stunning visual effects. They comprise:

MACRO PAINT V2
A fast and powerful graphics package fully utilising IV24's hardware. Its massive range of features include:

- Graduated Fills, Multiple Brush Handling and Stencils & Transparency
- Paint Effects - such as Tint, Colourise, Mosaic and Gamma
- Special Effects - via Alpha channel commands
- Capture Live Video Images - via IV24's frame grabber
- ARexx Compatible

DESKTOP DARKROOM
Capture images in Desktop Darkroom or bring stills in from other applications for professional processing and re-touching using filters, special effects and colour separation.

CALIGARI 24
Create stunning 3D images in 24-bit colour.

MYLAD
Wipe and fade between 2 video sources with 50 packaged video transitions for live action production studio effects.

CONTROL PANEL
Allows IV24 to be fully configured and calibrated to your requirements.

* Interface Card For Compatibility with the A1500/A2000

VIDI-12 COLOUR DIGITISER FOR ALL AMIGAS

This video digitising package boasts a wealth of exceptional video-grabbing attributes and will work with all Amigas. Its multi-tasking environment includes advanced error diffusion stippling (automatically notices unclear lines and fades edges to give a more pleasing image), cut and paste with image masking, captures artwork into a user-definable window. It also loads and saves IFF, ILBM and ANIM files, and it will allow you to grab and flip an image on X and Y axes. You can also store many frames and these can then be rapidly switched back onto the screen to produce an animated sequence. Screen formats include 4096 HAM, EHB, 262,000 HAM-E and 256 colour EREG. Now supports AA chipset.

- Colour Digitiser
- AA Chipset Compatible
- 18-bit Colour
- Includes Image-Enhancing Software

G-LOCK HIGH QUALITY GENLOCK

FOR ALL AMIGAS

This extremely high quality Amiga genlock, from GVP, has an intuition-based software control panel with full AREXX and command line interfaces. It is completely compatible with your Amiga and presents information and controls in a familiar fashion - you'll find this genlock easy to use. It features many sophisticated attributes among which are:

- 2 Composite video inputs and 1 S-VHS input for multi-signal input.
- Simultaneous composite, Y/C (S-Video) and RGB Output - Transcoder operation
- RGB output can be software switched to provide YUV (M-11/Betacam) output
- Video processor provides real-time software control of a video's brightness, hue, contrast, saturation, sharpness, filtering gain.
- Special colour filter circuit for special effects
- Converts most Secam video sources into PAL video (VCR quality)
- Keyer modes include Amiga only, external video only, overlay and inverse overlay modes plus control of Amiga ECS/AA special effects
- Audio processor with two mixable audio inputs
- Operates as an RGB colour splitter

AMIGA BOOKS — BOOKS

AMIGA ASSEMBLY LANGUAGE PROGRAMMING

If you are a serious programmer, who wants to break away from the limitations of pre-packaged software, discover the versatility of your Amiga by learning assembly language programming. This book gives you the idea to start.

McGRAW HILL — AMM 0023 — NORMAL RRP £14.95 — £12.45

USING DELUXE PAINT II/III

A masterclass in the program's drawing and painting facilities.

COMPUTE — AMM 0103 — NORMAL RRP £18.95 — £16.95

AMIGA C FOR BEGINNERS

The C language is fast becoming the programming choice for Amiga users world-wide. This book gives the language elements in plain English, so that you'll be able to use the C library routines and learn how the computer works almost immediately. You can start writing your own programs from the outset.

ABACUS — AMM 0038 — NORMAL RRP £18.45 — £16.45

C FOR ADV'CED PROGRAMMERS

Library routines, language structures, how the compiler works.

ABACUS — AMM 0037 — NORMAL RRP £38.45 — £28.45

AMIGADOS IN AND OUT REVISED EDITION + DISK

Master the internal design and practical applications of AmigaDOS. Learn about the CLI, the user interface. Have Workbench 1.3 commands explained in detail. Get the very best out of your Amiga operating system.

ABACUS — AMM 0050 — NORMAL RRP £24.95 — £22.95

INTUITION - PRACTICAL PROGRAMMING

This book will give you the key to release your imagination within the Amiga.

KUMA — AMM 3150 — NORMAL RRP £16.95 — £14.95

DESKTOP VIDEO WORKBOOK ED.2

Create stunning videos and start your own video company!

ABACUS — AMM 0010 — NORMAL RRP £22.95 — £19.95

AMIGA FOR BEGINNERS

Learn the essentials of the Amiga quickly and with ease. This book starts by telling you how to correctly unpack and connect your Amiga computer. It introduces Intuition, the mouse, windows, Workbench, Amiga BASIC and the command line interface. Also shows how to customise the 'extras' disk.

ABACUS — AMM 0110 — NORMAL RRP £12.95 — £11.95

AMIGA ROM KERNAL REFERENCE MANUAL

The definitive source of information on the routines and data structures in the Amiga operating system. Including useful function descriptions, device and resource calls. As well as complete listings of the Amiga's C, Assembly language & source codes for functions in the Amiga library linker & cross reference charts to help find all the information you need.

ADDISON WESLEY — AMM 1053 — NORMAL RRP £34.95 — £29.95

AMIGA MACHINE LANGUAGE

The advanced programmer or the interested beginner will find a wealth of information in this compilation of works by various authors. Many basic programs are shown with equivalent instructions in 68000 code. This book is the ideal choice for anyone interested in programming their Commodore Amiga.

ABACUS — AMM 0170 — NORMAL RRP £14.95 — £12.95

AMIGA HARDWARE REFERENCE MANUAL

Written by the technical staff at Commodore. This is the definitive manual. It provides information on assembly language, the co-processors, play field, sprites, the blitter, audio and system control, and interface hardware. One for the serious computer buff.

ADDISON WESLEY — AMM 0163 — NORMAL RRP £25.95 — £22.95

PROGRAM DESIGN TECHN'S

Learn to write efficient, and well structured Amiga programs.

KUMA — AMM 1500 — NORMAL RRP £16.95 — £14.95

KIDS & THE AMIGA

Don't let the title fool you. This book, although written for 8-14 year olds, will prove valuable to all who want to learn the ins and outs of BASIC programming and Amiga Vision. You'll learn how to make your Amiga talk, create colour graphics, and write user-friendly programs. The ideal teach-in for everybody.

COMPUTE — AMM 3600 — NORMAL RRP £14.95 — £12.95

LITTLE RED WORKBENCH 1.3

Packed with tutorials covering all major Workbench functions.

KUMA — AMM 1611 — NORMAL RRP £14.95 — £13.95

LITTLE BLUE WORKBENCH 2.0

Packed with practical tips and examples this book will get you started with AmigaDOS, show you how to format your own boot disks and gives extensive coverage of printers and printing. It also provides guides on hardware and software and what to do if things go wrong. Includes an extensive computer speak glossary.

KUMA — AMM 3620 — NORMAL RRP £14.95 — £13.95

McDONALD'S LAND

McDonald's Land is made up of 30 fantastic levels, spread throughout seven weird and wonderful worlds. You can access any level of the world you're currently visiting by simply manoeuvring a scaled down version of your character around the screen on a world map. To complete each of the worlds you must collect a number of hidden objects from each level and return them to the indicated point. But beware; you have many enemies that are dedicated to the task of stopping you completing your mission. Each level features ultra smooth parallax scrolling in all directions and is rife with platforms, bloodthirsty nasties, springboards and throwable blocks for killing the noxious enemy

RRP £25.99 REF ASM 2212 SILICA PRICE £22.99

PINBALL FANTASIES

By far the best pinball game available on the Amiga with ultra smooth 50 frames per second scrolling and superbly designed 64 colour graphics. Pinball Fantasies features 4 top tables to keep you on the edge of your seat for hours on end. Superb graphics and sound make this a must for all pinball fans. Features include up to 8 players and high score save facility

- *SMOOTH 50 FRAMES PER SECOND SCROLLING*
- *64 COLOUR GRAPHICS*
- *UP TO 8 PLAYERS*
- *MEGA BONUSES TO COLLECT AS YOU PROGRESS*
- *SAVABLE HI-SCORE FACILITY*
- *4 SEPARATE TABLES EACH WITH ITS OWN THEME, MUSIC AND SOUND EFFECTS*

ASTRA PACK

10 CLASSIC ARCADE GAMES

TASTORM — Visionary Design — Worth £19.99
Fastest defender-style blast 'em up of all time! Protect 8 survival pods as they attempt to escape from shattered civilisation. Lead them to a new sanctuary where they can settle in peace. The unrelenting hordes of aliens have missiles, smart bombs and cloaking devices at their disposal

DUNGEON QUEST — Gainstar — Worth £24.95
Unleash a multi-sensory dungeoneering. Work your way around a colourful medieval landscape in an attempt to rescue a friend who has fallen foul of an evil power. Stunning location images, detailed text sections and a text interpreter lead you through a tantalising journey of mystery and magic

E-MOTION — JS Gold — Worth £24.99
Aim to win or simply enjoy the kaleidoscope of shifting colours and patterns. Expand your mind and crack puzzles posed by nature. Producer JS Gold claims that this is a game which should not enrage you ("I believe them. Before you are through it will have your sanity

KID GLOVES — Millenium — Worth £24.99
Surrounded by lush jungle and shrieking parrots, the Kid knows he's in trouble. A moment ago he was in the safety of his uncle's study and about to put on a pair of boxing gloves. Now he must cope with the strange scenes from the Ice Age and the West Coast of America during the psychedelic 60s. Yes, he's time travelling and you must help him get safely back home

MONSTER GRAND SLAM — Rainbow Arts — Worth £19.99
Cross American Football with a coconut shy. Add Trolls, Dwarves, Elves, Goblins and Orcs. Stir with a great deal of good natured violence. Pour onto hockey-sized pitch and let the madness commence. You may not think twice about tackling this truly monstrous event. But, be warned! If you win fans of the opposing team may tear you to pieces.

POWER PLAY — Arcana — Worth £19.95
This original quiz transforms you and your opponents into the powerful Greek gods Apollo, Hermes, Aphrodite and Hecate each controlling 4 warriors in a fight to death within the Temple of Apollo. To win, you must demonstrate your wisdom by answering questions as well as testing your warriors' physical strength and agility

RVF HONDA — Microstyle — Worth £24.99
Experience computer generated speeds of 170mph in this first class Formula 1 motorbike racing game. Open up the throttle if you dare, and start by competing at club level before moving to the complex circuits of international events. Famous simulated race tracks include Donnington and Hockan

SHUFFLEPACK CAFE — Domark — Worth £19.99
Risk all on a few friendly games of Shufflepack with 8 intergalactic misfits and an obsolete android. Lose all and you win their contempt. Win and you get to leave this alien betting palace. If you are tired of those endless computer versions of Poker and Black Jack games this weird and witty game should peak your interest.

SOCCER — Microprose — Worth £24.95
Keep your eye on the ball to compete at world class level in the World Cup, International Challenge or the Indoor League Challenge either the computer or a human opponent choosing from 29 different teams. Realistic overhead perspective graphics combine with atmospheric sound to ensure that as a premiere league soccer simulation it does not put a foot wrong

TOWER OF BABEL — Firebird — Worth £24.99
A unique 3D strategy game played along a network of inter-connecting towers platforms and lifts all rendered in solid 3D perspective using innovative light and shading techniques. Take control of robot spiders and program them to solve complex puzzles to win the game. Alternatively, the game design facilities allow you to fox your friends with custom built conundrums

4D SPORTS DRIVING

Jump into the seats of the world's fastest cars and enjoy the great sensation of stunt driving. Loop the loop and hair raising jumps are just two of the performances you'll be putting these cars through. 4D Sports Driving allows you access to the most amazing test track ever built and in the fastest sleekest, cars the motor industry has ever created. It is the ultimate proving ground, where supercars can literally be tested to destruction. Choose to be a star of the Road, the high powered Racing Circuit or down market dirt track, putting cars made by Porsche, Ferrari, Lamborghini, Audi Lancia and Honda through their paces and performing a a number of phenomenal stunts. This brilliant driving simulation will keep you strapped in for hours. Take your car through the amazing set of pre-defined tracks or, design your own from the easy to use editor. Alternatively, you can take part in the most fiendish automotive stunts ever devised in an amazing 'seat of the pants' diving simulator. Improve your on the track abilities by replaying stunts and crashes through the 4D Sports Vision facilities which can be set to view from several camera angles. Digital sound effects and a full music score add to the auto sport ambience

RRP: ... REF: ... ASA 0152 — SILICA PRICE: £22.99

FORMULA ONE GRAND PRIX

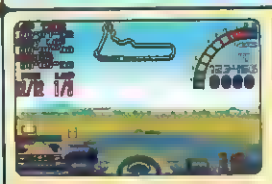
Become one of the chosen, for whom life must be lived in the fast lane, one of the 26 who through choice or chance who are capable of racing the most high powered motor machines in the world in this outstanding racing simulation all of the 16 famous international Grand Prix tracks are accurately created with fast full colour 3D perspective graphics. Its development and programming have been overseen by veteran race ace Geoff Crammond so you can be assured that any one of the cars you select as your own will behave exactly like a Formula One racer. You can adjust a the gears, brakes and aerodynamic wings in order to maximise your racing chances. If problems occur when you are on the track, take a timed pit stop where, amongst other services, your highly trained race side crew can fit a choice from 8 different compound tyres, each selected to ensure the best car handling amidst the most difficult of track conditions. Complete televisual coverage of every car in the race allows you to view the action from anywhere around the track and 4 different skill levels mean that you can move up from being a simple spectator of the winners to that coveted number one position. (Requires 1Mb RAM)

RRP: £34.99 REF: ASF 6942 — SILICA PRICE: £30.99

LOTUS - ULTIMATE CHALLENGE

Following close on the success of Lotus 1 and Lotus 2, this simulation quite rightly claims to provide the ultimate Lotus Challenge. Select to race in either the Lotus Esprit, Elan or mega-futuristic M200 concept car which you might see for real on the roads in a few years. Whichever one you choose, you're about to to find thrills which are usually only experienced by the richest amongst us. The awesome uniqueness this game's RECS facility gives you the power to generate a virtually infinite number of individually styled racing scenarios -that's 3 million at the last estimate! There are 54 pre-defined circuits available within the game. You can select between 13 widely differing scenarios and landscapes, including snow-capped mountains and roadworks. And, for those who are after something a little different, the game can also be played on a number of futuristic levels. A 2-player mode is available through a split screen option which has no noticable effect on the speed of the action. Every aspect of this road-ripping package has been throught through to provide the most memorable road racing experience. Strap yourself in and let those turbos come on line for a fast and furious ride.

RRP: £25.99 REF: ASL 8662 — SILICA PRICE: £22.99



NIGEL MANSELL - FOR THE A1200

Gear up for the 1992 Grand Prix season where, at last, the legendary Nigel Mansell won his spurs as World Champion. Choose your driver and native country, then test your driving skills against 11 other cars on 16 different international tracks. There are 3 levels of play: normal, professional and championship. You can take part in a full race or short run in arcade mode. Either way you will have to cope with the same often horrendous weather conditions. Other features allow your to test a single circuit, take part in a full race season, improve your skills with tuition from Mansell or undertake training at a driving school. The programmers have ensured that this simulation can be easily operated with the bare minimum of control hardware. As well as the usua. keyboard and joystick options, you can configure for a mouse or use the Nigel Mansell joystick controller (Refs: JOY 2510 (Analogue) or JOY 2505 (Digital)). The car can also be tuned and configured giving it selected tyres, aerofoils, and gears. The special A1200 version of the simulation has a much quicker frame rate fully animated pitstops, enhanced graphics and reduced data loading and saving times. All this adds up to one of the most powerful racing games on the Amiga.

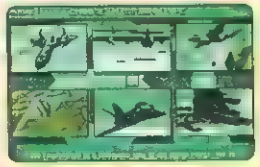
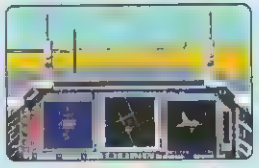
AMIGA ENTERTAINMENT SOFTWARE — FLIGHT SIMULATIONS A-F



BIRDS OF PREY

It is all-out war. You're armed with forty front-line jets and your mission is to wreak havoc upon the enemy's air, land and sea forces. It's not going to be easy. The foe is cagey and plans its own attack - watch out! Great simulation, all action, but you will need more than good reflexes. Birds of Prey is a unique simulation of modern warfare in which you'll not only experience every aspect of air combat but you'll also discover the pure destructive power of 40 fighter aircraft each of which has accurate weapons systems, flight dynamics and performance, all of which are reproduced in superb graphic detail. There are 12 types of individual scenario or you can fight an ongoing war campaign. Mission types range from aerial interception of the enemy and bomb runs on installations to troop drops behind enemy lines and Aerial Reconnaissance. Both sides of the war are constantly active. Planes roll out of hangers and patrol the skies, bombed buildings and airfields are gradually repaired, ground-based forces move to new positions and sea-based warships steam toward their destinations. Take to the skies, locate that enemy and lower those bomb doors. This is all out war. Don't let it beat you

RRP: ... £34.99 REF: ASB 4312 — SILICA PRICE: £30.99



F-15 STRIKE EAGLE II

The latest and greatest of the superb Microprose simulators. Fly in six real world war arenas giving a total of nearly half a million square miles. Each area contains hundreds of missions. Four levels of difficulty instantly put you in at the deep end and optional autopilot landings allow you to concentrate on airborne action. The controls are simple, effective and easy to remember making it a great flight simulation for beginners and experts alike. An astonishing 10 viewpoints give you the opportunity to view the fast flowing 3D environment from virtually anywhere around your aeroplane, and a unique Director option can be used to automatically change the view for you so that you're always looking right into the centre of the action. The newest smart weaponry and laser-guided armaments have been attached to your fighter and primed for launch. But remember that enemy pilots and missile crews act and react intelligently and quickly. Success demands concentration and bravery. So, don't delay. Take your place in the hottest seat of them all, grasp the joystick, set your course and prepare for take-off. Prove yourself a high flying hero. (Requires 1Mb RAM).

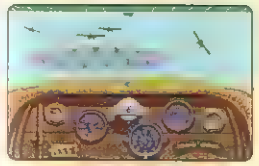
AMIGA ENTERTAINMENT SOFTWARE — FLIGHT SIMULATIONS F-Z



KNIGHTS OF THE SKY

Every major fighter in WWII is featured in this superb simulation - and you can fly them all. Navigate by actual mapping of trenches, roads, cities and aerodromes. Accomplish hundreds of missions in 7 campaigns and see all the action in 3D. Discover how it felt to fly a Spitfire. You are a hunter stalking Germany's most celebrated pilots, one of whom is the infamous Baron Manfred von Richthofen. Ploughing through the clear, cool air above Flanders, this is your hunting ground. The ear shattering drone of the antiquated engine, the icy cold blast of wind racing into your face reinforce the knowledge that you are dancing on the brink of death. At last coming out of the rising Sun, you spot him and the first shots twist into the light. The roaring red Fokker lines up in your sites. You must outthink him and out gun him to survive this dog fight. Using news and intelligence reports, as well as your own intuition, you must track down the men whose aerial prowess stands between you and glory. Take on the might of the enemy alone against a computer generated opponent or challenge a friend, via options, modem or direct cable link, in the battle to become Ace of Aces

RRP: £34.99 REF: ASK 7522 — SILICA PRICE: £30.99

GUNSHIP 2000

In the tradition of the award-winning and best-selling AH-64A Apache, Gunship 2000 puts you in the pilot's seat of a selection of America's most powerful and versatile rotor craft. Take charge of five different types of helicopter on 100s of combat missions buzzing across the Persian Gulf and Central Europe. Included are accurate simulations of the AH64 Apache, AH-64B Longbow, OH-58D Kiowa Warrior, UK-60K/L Blackhawk, AH-1W Cobra, AH-56a Commanche and the MD530G Defender. Each of these aircraft has a faithfully reproduced cockpit display which is designed to behave specifically to that particular helicopter. Gunship 2000 also makes full use of the A1200's sound capabilities, including digitised speech and realistic helicopter sounds. Owing to the complexity of the simulation, beginners can set the computer to take care of weapons systems and counter measures, choose between realistic or easy flight and set up various weather options. Once airborne, startling 3D graphics portray low level altitude flight with uncanny realism over three war arenas. Progress and you win promotion until you eventually command a squadron of five helicopters.

AMIGA ENTERTAINMENT SOFTWARE — LIFE SIMULATIONS

CASTLES

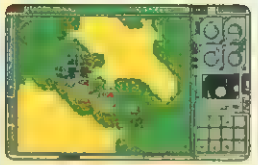
Zero Magazine said that this simulation combines the best of Populous, Sim City and Railroad Tycoon" It's the 13th Century, you are King but your castle isn't up to much so you decide to build a new one. But how? Taxes and cheating - you get your castle but your enemies went it. (Req 1Mb)

RRP: £29.99 REF: ASC 2702 — SILICA PRICE: £26.99

CIVILISATION

An award-winning conversion of the classic title World Domination. You must choose and take control of any civilisation from history and then build it into a power capable of dominating the world by carefully trading their resources and by using the armed forces available

RRP: £34.99 REF: ASC 4762 — SILICA PRICE: £30.99



GLOBAL EFFECT

On a distant world you must create a civilisation to rival that of Mother Earth. But be careful, resources are scarce and the effects of economic activity and warfare might be enough to send your world into the quagmire of ecological disaster or nuclear winter (Requires 1Mb RAM)

RRP: £29.99 REF: ASG 5102 — SILICA PRICE: £26.99

SYNDICATE

Business syndicates of the future are mega corporations, spanning across vast continents and wielding more power than any present-day government. As a young executive in one such syndicate your aim is to rise in the ranks and to do that you must subvert or assassinate the opposition using remote controlled cyborgs.

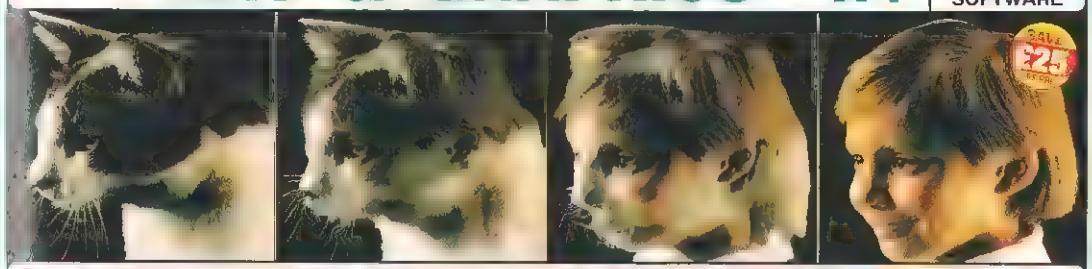
ART & GRAPHICS A-I

AMIGA PRODUCTIVITY SOFTWARE



CINEMORPH - GRAPHIC TRANSFORMATION - FOR ALL AMIGAS

...ick photography in the cinema, has come a ... way since Cecil B De Mille parted the ...ves in The Ten Commandments, and King ...y wandered onto the big screen. The ...ning visual effects of a Stephen ...elberg film bear witness to that. Now thanks to GVP the latest cinematic technology is available to Amiga owners. Cinemorph gives you the power to magically conver... one image to another, producing stunning illusions and visual effects.

- Fully configurable
- Single image warping
- Static or full motion morphing
- Fast rendering times
- Generate and automate animations
- Easy to use interface on-line help
- Renders to FF, DCTV & 24 bit formats

REQUIRED:
- AmigaDOS 1.3 or 2
- Minimum of 3Mb RAM

RECOMMENDED:
- An Accelerator card to turbo charge animation
- Hard drive

GOLD DISK OFFICE III

WORD PROCESSOR + DATABASE + DTP + SPREADSHEET + GRAPHICS

The latest version of this great package takes full advantage of Amiga multi-tasking the AGA chipset and ARexx allowing unprecedented integration between its word processing, database management, DTP, spreadsheet calculations and graphic functions.

In effect, it turns your Amiga into a fully integrated, easy to use and highly productive office. Office Write is a lightening fast word processor featuring smooth text editing, 90,000 word spell checker with "Guess" spelling facility, auto index and mail merge capabilities.

Office Calc is a complete business spreadsheet with intelligent recalculation for speed. The spreadsheet is large 32,000 rows X 32,000 columns. It also features over 100 statistical, financial, and trigonometric functions and allows on-line support to office write so that text can be added to any cell

Office Page will integrate text and graphics to produce stunning publications. It also has full IFF graphics compatibility and is in effect a DTP package in its own right

This is a powerful all-in tool that will be of service in so many areas that you'll wonder what you did before you acquired it. Excellent value

Requires any Amiga with 1Mb RAM.
Recommend two disk drives

RRP: £129.95
REF ASG 5812
SILICA PRICE £59.95

MINI OFFICE

...h word processor, spreadsheet ...abase, graphics and disk utility ...ctions, this package is the perfect all-in ...for the home or office

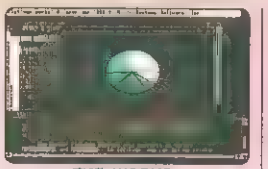
...nique Icon Bar system makes ...olling these powerful functions simple ...main menu allows you to move back ...forth between these different modules ...t your individual needs

Within the word processor module you can compose a letter, mail merge details from the database file, add graphics and wrap text. The database allows you to build a versatile card index, incorporate 50 fields with 70 characters each, use search and display to modify data, do powerful multi-field sorting and perform arithmetic functions

The graphics function allows you to import and manipulate data from the package's word processor, spreadsheet and database modules. You can also provide a wide range of professional quality business graphics to brighten up hard copy presentations. Facilities include 18 types of graphs and charts, and you can even make use of eye catching 3D effects. Add to that an extremely flexible set of disk utilities and you've got a powerful package for office organisers and executives who want to do more than toy with computerisation

Requires any Amiga with 1Mb RAM

RRP: £59.95
REF ASM 5422
SILICA PRICE: £52.95



THE WORKS - PLATINUM EDITION

This integrated business package comprises powerful word processor, spreadsheet, database and flexible communication software. The word processor module supports a massive 104,000+ word spelling checker (which includes definitions) and 470,000+ word Thesaurus with scientific and technical dictionary. Type emphases include bold, underline and italics. The word processor also allows the printing IFF standard graphics and is clipboard compatible. Work's spreadsheet is capable of importing and exporting Lotus 123 files, it also features a complete macro language and has over 40 other built-in functions. The Dbase compatible flat file database is capable of storing 4.2 billion records each containing 128 fields. It, like the word processor, is clipboard compatible. The integrated communication software allows the transfer of documents via modem at baud rates between 300-19,200. It has advanced auto redial capabilities, a 40 number telephone director and chat mode

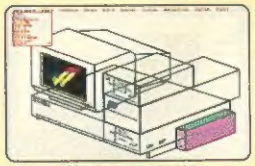
COMPUTER AIDED DESIGN



INTRO CAD PLUS

If you want to design a kitchen, garden or room, this package is ideal. Achieve superb results quickly, and, when you have finished, print your designs on a plotter or dot matrix printer that supports screen dumps.

With ARexx compatibility you can put potent math facilities to work and create evermore complex objects automatically by plotting ARexx computations.

This package has 16 layers that give you the power to organise your drawings.

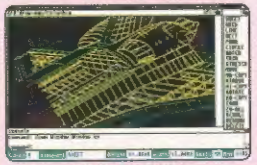
You can select frequently used pull-down menu options at the touch of the button and the Intro Cad preferences file allows you to set-up and save your preferred working rules.

Intro Cad has up to 128 different hatching combinations and, by using script language, you can create even more. Add texts to your drawings using any of the built in fonts or again create your own. This is a flexible package!

- ARexx compatible
- Print facility
- 16 layers
- Pull down menu options
- 128 hatching options
- Add text to drawings
- Customised working rules

RRP: £79.95
REF: ... ASI 9432

SILICA PRICE: **£69.00**



X-CAD 2000

X-CAD 2000 is ideally suited to the first time CAD user. Automation of the design of architectural, mechanical, electrical and process engineering drawings is straight forward.

Once these designs have been completed they are easily projected or spun in true 3D model space and viewed in orthographic, isometric or perspective orientations.

With a series of tree menus which show all available options in clear type, this is an extremely flexible system, especially when combined with user-defined vertical menus - you can customise X-2000 to your liking.

Using IDENTS for entity selection, this package combines absolute co-ordinates with relative co-ordinates, object mapping and masking in one powerful menu, accessible by all commands.

- Easy to use
- View in orthographic, isometric or perspective options
- Customise to your liking
- Object mapping
- Object masking
- Intuition-based platform
- Dedicated Amiga flat card database
- Drop down menus
- Complex search and sort options

DATABASES

GB ROUTE PLUS

This package will help you plan your car journey to anywhere in the UK. It will also cost your journey, give an estimated time of arrival and print out a route or map in either black and white or colour. All this can be achieved in a matter of seconds. This package will save time, money - and headaches.

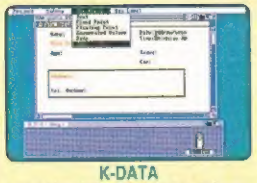
It features over 25,000,000 routes including motorways, A and B roads in cities, towns and villages It will calculate the shortest, the quickest and cheapest routes, it even allows 5 via options, gives up to 3 avoid places and roads. It has an interlaced display that allows maps to be viewed with greater clarity with both scroll and zoom map facilities. With 10 levels of magnification from 1 inch to the mile and a mileage scale bar, it also uses national grid co-ordinates.

GB Route Plus supports ARexx giving extremely quick responses to your requests, and will even automatically calculate vector map mileages.

- Plans journeys anywhere in Britain
- Estimates time of arrival
- Print map
- 25,000,000 routes
- A & B roads included
- 5 via options

RRP: £49.95
REF: ... ASG 3122

SILICA PRICE: **£44.95**



K-DATA

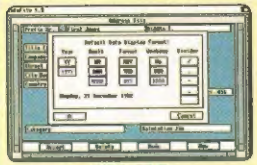
An Intuition-platformed database. This package is extremely easy to use having been designed specifically for the Amiga computer system. Although this is a flat card-type database, K-Data makes full use of the drop down menus and other user friendly features of "Intuition".

An ideal solution for all your database applications. It features variable length fields, up to 300 fields per record with data files automatically extended, as data is entered extra fields maybe added at any time. Indexed files have up to 5 indexes which may use supplementary sort fields.

- Variable length records use only the memory required by the data entered
- Maximum number of records per data file limited only by system and the disk in use
- Maximum number of open data files is usually between 2 and 4 but depends on available memory
- Maximum data characters per record is 10K (depending on Amiga memory size)
- Maximum number of fields per record limited only by scrolling area within a graphics window
- Maximum number of characters per field is the area of the largest on-screen window

RRP: £51.70
REF: ... ASK 2752

SILICA PRICE: **£46.70**



INFO-FILE

One of the simplest list management programs for the Amiga, this package will help store and organise numerous home or business addresses and phone numbers. The software comes with ready made database templates designed for the most common uses of storage including addresses, club activities, expense reports, libraries, and many more. You are then able to print your database information as either a long organised list or customised as mail labels. Alternatively data also can be stored as standard IFF text and graphics files for easy export to other Amiga applications. Requires 1Mb memory. Hard disk recommended. The IFF format can also be used to import graphic files created with FusionPaint, DeluxePaint, DigiPaint or may other IFF compatible painting or digitising programs. These files combined with Info-Files sound and vision manipulation facilities can then be used to create automatic slide shows, sound shows and movies. In a similar vein, Info-File can be used import or export to and from ASCII text file compatible programs such as other databases or word processing packages.

SPECIAL OFFER

RRP: £34.95
REF: ... BUF 3021

SILICA PRICE: **£9.95**

SUPERBASE PERSONAL

First in a new generation of database systems. This package benefits from the latest ideas in ease of use - pull down menus, multiple windows, point and click selections, as well as, having the full power of the relational database management. Superbase has a unique special picture reference facility and data handling to create a picture/data library. Your data can be read by tables or page to page - you select the fields and have full control over the data displayed. You can view data using a fast VDU operation - fast forward, rewind and pause - it's as easy as playing a standard tape deck. Define reports and related queries across multiple files, with multiple sort levels. Import data from other databases or applications and export data to your word processor. The advanced B Plus file system ensures high performance at all times. Its specification allows for 16,000,000 records with 999 indexes per file. You can generate reports of up to 255 column character width. It is also KickStart 2 compatible, this means that it has been produced with the Amiga in mind.

EDUCATION M-Z

MICRO MATHS

For pupils aged 11 upwards. 24 programs with more than a million possible problems covering many topics including percentages, fractions, averages, histograms, ratio and proportions, polygon properties, simple equations and the solution of trigonometric problems using sine and cosine formulae.

RRP: ..... £24.52 REF: ... ASM 4582 SILICA PRICE: £21.52

PRIMARY MATHS COURSE

A complete set of 24 programs taking children of 3 years up to the required level to pass a secondary school entrance exam. Areas covered in this program include: Addition, subtraction, hundreds, tens and units, tables, shape recognition, multiplication, division and weights.

RRP: ..... £24.52 REF: ... ASP 7112 SILICA PRICE: £21.52

SPELL AT HOME

A fascinating way to learn to spell. Familiar household objects become teaching aids as children wander through the computer generated house and garden. A child's arm acts as pointer to the various objects which must then be spelt out. Correct spelling is rewarded with a catchy tune and smiling face.

RRP: ..... £14.95 REF: ... KIT 4932 SILICA PRICE: £7.95

WHICH? WHERE? WHAT?

This is a brilliant compilation of three enchanting games which will captivate 4-8 year olds for many hours. The Runabout game will improve their spelling. Mouse House helps with reading skills and Blobs will enhance the childrens' shape/colour and pattern recognition skills.

RRP: ..... £19.99 REF: ... ASW 4212 SILICA PRICE: £17.99

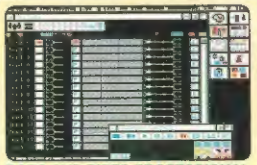
AMIGA PRODUCTIVITY SOFTWARE

MUSIC A-M



BARS AND PIPES PROFESSIONAL

This highly polished top end music sequencer will edit your sounds in real, stereo or graphical time. It works via a series of easily called macros which can be used to order anything from recording, embellishing and editing to arranging, mixing, syncing and printing out the music at any time. Recording can be done to an unlimited number of tracks and notes. Its sequencer provides all the features you would expect plus the ability to view the music as it plays. It's pipeline editor allows unlimited methods of editing your music in real time. Editor options also include an event list, piano roll and real music notation - with a stroke of the mouse you can adjust MIDI events graphically or numerically. Bars and Pipes automated mixing feature, MixMaestro, provides real time control of volume, panning and other MIDI controllers. As your music plays, you can move the various sliders and knobs to adjust the balance of your arrangement, then save your mix to disk. Bars and Pipes can also be used to sync with a number of visual sources. All in all, its one of the most flexible music packages on the Amiga sound market.

RRP: ..... £299.00 REF: ... ASB 2672 SILICA PRICE: £229.00

MUSIC MOUSE

Making music has never been more fun. Hailed as a revolutionary music tutor, the MIDI compatible Music Mouse turns your Amiga into an instrument which is played by pushing the music around in real-time using a mouse while accessing real-time control options from the keyboard. The program explores the areas of harmony, voicing, rhythmic treatment, articulation, counterpoint, dynamics, electronic orchestration, transposition, & computer generated melodic patterns through single letter keystrokes. Music Mouse can als act as a MIDI controller for s compatible keyboards and synthesiser It has been designed to be a complete self contained stand-alone controller f MIDI synthesisers which have n keyboards or other input devices. Yo can also use Music Mouse to embellis your accomplishments as a soloi playing a full accompaniment with on with one hand, using mouse and Amig to whatever you are playing on yo MIDI synth keyboard.

MUSIC X v1.1

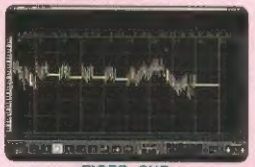
This 250-track sequencer is user-friendly and multi-tasking. It includes DANTEgraphic sequence editing, MIDI filter/patch bay and synthesizer voice librarian. Allows 20 track simultaneous play and real-time track muting/mixdown. Also features internal MIDI sync and MIDI time code sync.

RRP: ..... £149.95 REF: ... ASM 9002 SILICA PRICE: £24.95

SUPER JAM

Writing music is child's play with Super Jam. Create your own chords, rhythms and bass lines, invent drum tracks, design sections, even combine different musical styles without ever touching a musical instrument. Great value package that will rock you. (Requires 1Mb RAM).

RRP: ..... £79.00 REF: ... ASS 9272 SILICA PRICE: £69.00



TIGER CUB

Cub is so easy to use you'll be playing music in minutes, not years. It will even print your masterpieces in standard musical notation - so they can be preserved for prosperity. Cub has real-time recording, quick scoring and loop recording amongst a host of other features. Described by the manufacturer Dr. T's as "the music program for the rest of us", Tiger Cub uses only the mouse to create music that would make Stravinsky proud. It supports Amiga IFF sampling and MIDI giving you access to a broad base of real-time sounds. The 12 track package will soon have you entering you own compositions using the intuitive icons and menus interface, mouse painting notes onto the graphic "piano roll" screen and recording input from your MIDI keyboard using the tape recorder screen. It can even memorise the names of all the sounds in your MIDI drum assignments and will identify tracks by instrument and program name. All facilities are available in real-time while the music plays and scrolls. The Multi-Program Environment allows you to load other compatible programs such as XOR, Copylat or any Caged Artist editor without leaving Cub and will switch between them or shared data. Why be satisfied with a mewl when you can have a roar. Tiger Cub delivers it all. (Requires 1Mb RAM).

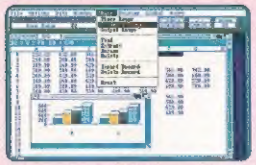
SPREADSHEETS



K-SPREAD 4

Designed for professional users. Its specification has more than 200 functions including string and error trapping. Special features include adjustable width and height size, full justification and text can be in bold, italic or light. This is a sophisticated package that will meet all your needs. This latest version of K Spread has a maximum sheet matrix size of 255 columns x 8192 rows with cells that are width and height adjustable. Formatting commands include Left, Right, Centre and full justification with selectable word wrap and all the usual type styles - Bold, Italic, feint etc. It recognises all Lotus functions and formulae, and can mix the wide variety of other functions provide the spreadsheet with abilities in the worlds of statistics, trigonometry, and data management. Special functions include string manipulation, error trapping, and date/time stamping making this one of the most professional spreadsheets available to Amiga business owners.

- Maximum Size Sheet: 256 Column x 8192 Rows
- Cells : Adjustable Width and Height
- Text: Bold, Italic, Feint, Selectable Word Wrap
- Justification: Left, Right, Centre and Full
- Recognises Lotus Formulae

RRP: ..... £99.95 REF: ... ASK 8542 SILICA PRICE: **£89.95**

MAXIPLAN 4

This highly powered professional Lotus 1-2-3 file compatible spreadsheet can handle worksheets of 512 columns by 32,760 rows. It incorporates many special database features such as ascending and descending sorts on any number of fields. A maximum of 12 chart styles can be used to display data to best advantage and a host of more than 70 other functions ensure that you can squeeze the most out of any information input. An outline mode shows and hides data at different levels and a flexible screen layout means that you can display work sheets in either medium or high resolution and produce output in 4, 8, or 16 colour modes. Colours can be modified using the Palette Tool and these can be implemented on hard copy if you are using a colour inkjet or laser printer. Database facilities allow you to create upto 63 datafiles per worksheet while the DataView mode enables you to transform a worksheet into a database display. The powerful Macro language facility allows you to create 32 macros per worksheet incorporating single key macro command activation. All macro command sets can be activated from ARexx and charted via self-diagnostic displays which show macro actions and step-by-step execution of macros.

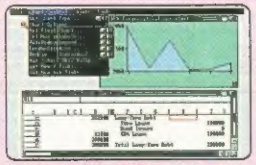
RRP: ..... £49.99 REF: .. ASM 2012 SILICA PRICE: **£39.99**

MAXIPLAN 500

Spreadsheet your way to financial success with this integrated financial and database package. Cell notes can be displayed or, uniquely, spoken through voice synthesis, worksheets can be linked and all files password protected. The package includes 70 built-in functions and will import files from Lotus 1-2-3 v1.1. Maxiplan 500 provides the ultimate in user convenience with command accesses including the use of pull-down menus, function keys, Amiga Command keys and the mouse. A uniquely featured Zoom mode allows the display of more columns and rows to enable the quick selection of specific ranges while the linking of worksheets allows the wider application of data subsets. Maxiplan 500's comprehensive business graphics abilities include extensive chart specification flexibility, over 10 graphic styles of chart and the application of upto 8 charts within one worksheet. Add to these features the creation of mail merge files, a printer spooler and sophisticated password protection for data and you've got one of the most sophisticated spreadsheet packages available for the Commodore Amiga. Works with Workbench v1.2 and v1.3 only.

SPECIAL OFFER

RRP: ..... £39.99 REF: ... KIT 4902 SILICA PRICE: **£19.99**



PROFESSIONAL CALC

An advanced and friendly graphic user interface features an icon-bar that puts powerful, often used tools right at your fingertips, while on other, increasingly sophisticated feature levels Professional Calc gives you everything you need to get the job done. The integrated database allows you to store and manipulate your cores of information before using them for financial modelling in the spreadsheet. Highly specific and complex models can be produced but the package also contains a library of pre-configured templates that can be utilised for a variety of common financial applications. With its high end professional specification, Professional Calc can be configured to work with your printer, no matter how lowly it might be. For the office or professional person who has a laser, the spreadsheet can output via a Postscript option. It, however, you only have access to a dot matrix, a reasonably good graphic output can be achieved via its head. The package offers all the sophistication of the most professional financial modelling products but is more than just a spreadsheet and it competes with any number crunching program on the the Mac or PC. (Requires 1Mb RAM).

AMIGA PRODUCTIVITY SOFTWARE

UTILITIES A-C

AMI-BACK 2

Ami-Back is the ultimate hard disk drive back-up utility for the Amiga with complete and selective data recovery options. Also included is Ami-Sched, a scheduling program that directs Ami-Back to perform back-ups without user interaction. Ami-Back's back-up options allow you to select sources from any of the available devices and choose destinations from regular or high density floppy drives, streaming tape or DAT tape drives, AmigaDOS files, or any mounted partition. You can perform a complete back-up of any media or configure for Selective back-up, Recovery and Image - the latter of which allows you to operate on non-AmigaDOS partitions such as AMAX, UNIX or MS-DOS. This new version of Ami-Back also performs a 911-Recovery on lost data from corrupted hard drives, so now you don't need a separate hard disk utility to do this. A filter system cuts down on the time required for back-ups or restores, allowing you to nominate Ami-Back should handle. Through the Compare option you can verify back-up data file by file, checking for any differences in, for instance, file size or date stamps. Full online help is available through the AmiGuide interface and a built-in scheduler gives complete control of Ami-back.

RRP: ..... £39.95 REF: ... ASA 4572 SILICA PRICE: **£37.95**

AMI-BACK TOOLS

This sophisticated set of floppy and hard disk optimisation utilities includes all the anti-virus, defragmentation, and recovery facilities you are ever likely to need. The package compacts data, restores deleted files, wipes disks clean, and looks for virus impregnation. 8 superb in-built utilities provide the ultimate in disk drive servicing. General Practitioner optimises disks by file and frees space for maximum performance. If your hard drive operation is interrupted for any reason, you may still recover the file system. The Disk Analyst finds and fixes problems with disk structure and allows you to undo changes made to the file system. Retriever recovers deleted files in place or those lost through quick format while Antiseptic wipes all evidence of old data from disks ensuring memory optimisation, and the Lab Test utility performs Cyclic Redundancy Checks of all files. Like Ami-Back 2, Tools provides 911-Recovery for lost data by backing it up to hard disk or any other Amiga related file system. It also includes an events scheduler which supports any number of events over any time frame. Simply put, this package is one of the most powerful and flexible hard disk maintenance programs for the Amiga.

UTILITIES D-Z

AMIGA PRODUCTIVITY SOFTWARE

DIRECTORY OPUS 4.0

This new version of Directory Opus is fully compatible with the new A1200/4000 and now has improved audio image file support, a file filter (by name), bitmap font viewer, and hotkey configuration options. As well as launching applications it can also show pictures, play sounds and run animations. Opus can even be taught to recognise any type of file created by any Amiga software package and you can even reconfigure the interface to suite the way you want to use the program. Directory Opus will also launch programs and CanDo decks, show pictures and brushes, show fonts, animations and animbrushes and play sound. Complete directory trees and histories can be displayed on-screen and a complete text file printer is provided as an external loadable module. On the sound front, Opus supports the IFF standard 8SVX and can play sounds in a one slot or looped fashion. It also has built-in support for SoundTracker, NoiseTracker and Protracker which are some of the most popular song tracker formats available. The songs created by it just have to be heard to be believed. Opus is the ultimate directory management tool and, taking its graphics and sound manipulation facilities at their fullest, you won't find another product in its range to beat it.

RRP: ..... £69.95 REF: ... ASD 7562 SILICA PRICE: **£59.95**

DOCTOR AMI

Doctor Ami is a memory and hard drive diagnostic program that performs sophisticated, low level tests on your Amiga system using a full Intuition based interface and simple controls and displays. It could prove invaluable and save you money on avoidable crashes. The memory diagnostic program scans the system for all memory, including onboard, expansion and accelerator RAM. Regions can be selected to test the read/write options and an error list of bad memory locations can be displayed. The program also generates an error file that can be used with the boot-up sequence to map out the bad areas of memory. Doctor Ami's hard disk diagnostic routine scans each sector of media or, alternatively, a specified region of your drive and displays full error code messages. The program allows sector mapping and the patching of any file using a bad sector. Sectors with errors are removed for the block availability map, so that they cannot be accessed. This package proves that the Amiga is the most configurable, dynamic personal computer on the market today. Doctor Ami ensures a long life for all your on- and off-line memory media. Don't store up trouble when this doctor can provide an efficient diagnosis.

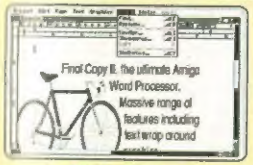
WORD PROCESSORS

AMIGA PRODUCTIVITY SOFTWARE



FINAL COPY II

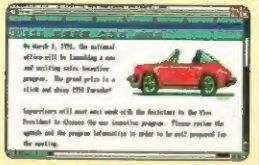
This package is the Amiga's most powerful and is compatible with all versions. As it supports Workbench 2-style interfaces, it is easy to use. It provides 110,000 word spelling detector and corrector and 826,000 synonym thesaurus. Most importantly it includes 20 smooth outline typefaces.

RRP: ..... £99.95 REF: ... ASF 3622 SILICA PRICE: **£69.95**

KINDWORDS v3.0

This wordprocessing and page layout system is simple to operate yet powerful. An ideal choice for beginners and professionals alike. It features, among others, automatic text flow around graphics, up to 255 screen fonts per document, spell checker and thesaurus. Req Amiga 1Mb RAM.

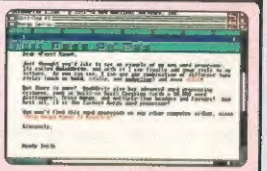
RRP: ..... £49.99 REF: ... ASK 5832 SILICA PRICE: **£26.99**



PRO WRITE v3.3 UK

Voted as "THE" word processor of the Amiga. Features: Multiple fonts, sizes, types and colour. Import IFF pictures even HAM (4096 colours!), wrap text around graphics, multiple columns with either make or side-by-side text flow and a 100,000 word dictionary, among others.

RRP: ..... £79.95 REF: ... ASP 8802 SILICA PRICE: **£54.95**



QUICKWRITE

The best Amiga WP for 512K Amigas. Easy to use, allows text to have multiple styles and colours, 50,000 word spell checker, spell as you type, add words to dictionary, set margins easily, find next/change word, go to any page, word/line/sentence. Prints to virtually all printers.

RRP: ..... £39.95 REF: ... ASQ 7152 SILICA PRICE: **£29.95**

PROWRITE 2.5

More than a comprehensively featured word processor, ProWrite takes full advantage of the Amiga's graphic impact on the printed page. Take multiple fonts, sizes, styles, and colour, add simply controlled page layout and you've only scratched the surface of this package's versatility. ProWrite can operate up to 8 text windows simultaneously and each What You See display ensures that you know what you are getting on the screen before it becomes printer output. The flexible object manipulation facilities allow you to combine words with pictures (which can be in the full colour IFF format), place text alongside pictures and even wrap words around the outlines of graphics. Prowrite has a logical easy-to-master operation which offers use of either the keyboard or mouse for most operations. Its WYSIWYG format allows you to see what you are doing at all times, be it basic editing operations to professional page design. File compatibility with other Amiga database or DTP programs makes communication easy. Works with Kickstart v1.2 & v1.3 only.

AMIGA REPAIRS

REPAIRS & UPGRADES

A NEW SERVICE FROM THE PROFESSIONALS

Our fully trained servicing team offers a comprehensive upgrade and out-of-warranty repair service for all Amiga 500 and 500PLUS computers.

SENDING YOUR AMIGA TO US

When returning your Amiga by post or courier, please ensure that it is wrapped securely in protective packaging. Remember to include your mouse, mains adaptor and modulator. Please send it to our Sidcup address (see front cover), either via the postal service (we recommend you insure your parcel) or contact our sales office to organise for our courier to collect from your door for a nominal charge of just £5.88. Please also include the following, preferably in an envelope, securely fixed to the base of your computer.

- Your name, address (inc. postcode) and daytime telephone number.
- Details of the repair or upgrade you require.
- If you require a repair, please summarise the problems.
- Payment for the repair or upgrade, according to the price list below. For repairs, we suggest you send the normal £44.95 charge. On the rare occasion when an extra charge is required, we will contact you (see below).

REPAIRS

On arrival at our servicing department, your Amiga will go through an initial diagnostic check to find the source of the problem. If your computer requires a standard repair (i.e. circuit board, power supply or keyboard), this will be carried out for you straight away. In certain circumstances, our engineers may need to contact you before proceeding. For this reason, it is useful for us to have a daytime telephone number where we can reach you. This will save the delay of sending a letter to you. If you decide not to go ahead with the repair, a nominal charge of £19.95 will be made to cover administration costs and technicians' time. We will then return your computer to you by overnight courier at no extra charge.

UPGRADES

Many internal upgrades are available and these are detailed throughout the catalogue including those from the GVP range. Unless otherwise specified, if an internal upgrade is made to your Amiga, the Commodore warranty will become void. Any upgrade purchased at the same time as an Amiga 1500, 3000 or 4000 will be fitted FREE OF CHARGE by one of our service engineers before despatch.

FAST AND EFFICIENT SERVICE

Our servicing team operates in a fast and efficient environment, with the very latest diagnostic and repair facilities. We have made every effort to minimise the time we take to upgrade or repair your computer, so you are without it for the shortest possible period. In fact normally, your computer can be despatched to your home address within five working days of it being received by our servicing team.

REPAIR/UPGRADE WARRANTY EXTENSION

Each repair or upgrade carried out by Silica comes with a 30 day warranty. For only £19.95 we will be pleased to extend this warranty to one year, giving you peace of mind computing for a full 12 month period. Any repairs required during that one year period will be carried out by Silica free of charge, providing the Silica seal, which we affix to your machine after the initial repair/upgrade, has not been tampered with.

FREE COURIER DELIVERY

All prices for individual repairs and upgrades are listed below. These include a full diagnostic check, repair/replacement of faulty parts and a soak test. To ensure that you get your computer back as quickly and as safely as possible, we will send it by overnight courier service, for delivery to your door FREE OF CHARGE.

OUT OF WARRANTY REPAIRS - (IF YOUR AMIGA IS STILL WITHIN ITS 1 YEAR WARRANTY PERIOD, CONTACT YOUR PLACE OF PURCHASE FOR A FREE REPAIR)
